1.Draw horizontal lines

2.Measuring and Cutting

3.Glueing

4.Butt Splice

5.Reinforced with gun nails

6.Caulking, repairing, cleaning

7.Use of prefabricated corner

Method 1:

1.Dimension measurement

2.Leveling

3.Fixed with structural adhesive and air nail gun

Method 2:

1.Dimension measurement

2.Leveling

3.Fix with lock screws

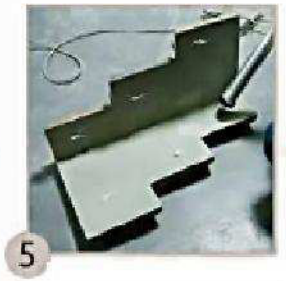
/ FPC Installation steps

1 Prepare installation tools

2 Clean up wall debris and dust

3 Use a tape measure to determine the position

4 Positioning



5 Install the corner first, apply the right amount of special adhesive

6 The glue dries before the nail gun can be used to fix

7 Apply proper amount of special glue on the back of the product

8 Install flat products along the positioning line and use a nail gun to fix them before the glue dries

9 Repeat the previous steps to install the product, paying attention to the product fit

10 Measure the remaining wall size at the top, cut and sand the product according to the size, pay attention to keep the product cutting size consistent

11 Finally install the top product

12 Cut and sand products to fill gaps according to the remaining condition of the wall

13 Installation completed,clean the product surface dust

PANEL
SERIES

CONCRETE BOARD

Impressions

With its raw texture and earthy hues, the Cement Board exudes an industrial, rugged beauty. The irregular surface textures, as if recording the passage of time, are suitable for design styles that combine originality with modernity.

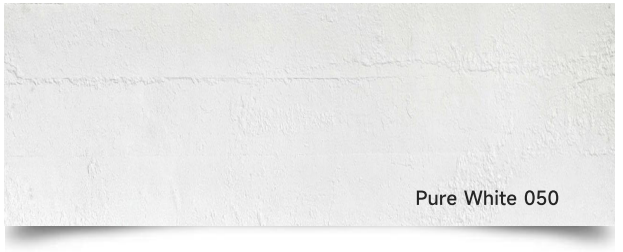
Application

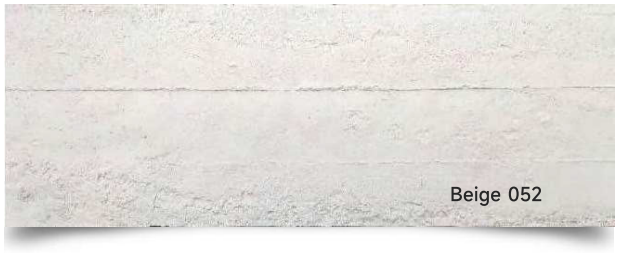
Recommended for interior wall decorations, feature walls, and exterior building facades, especially suitable for spaces designed in an industrial style.

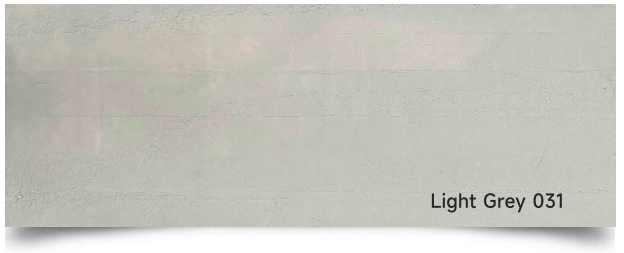
Specification

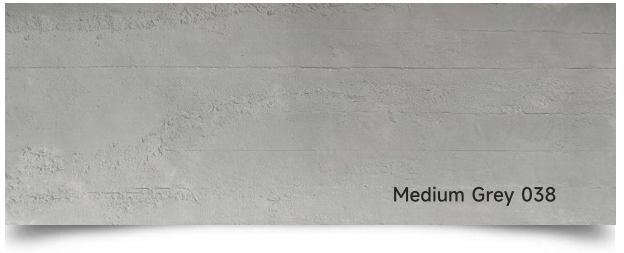
Size	**3000x1200mm**
Thickness	**3-5mm**

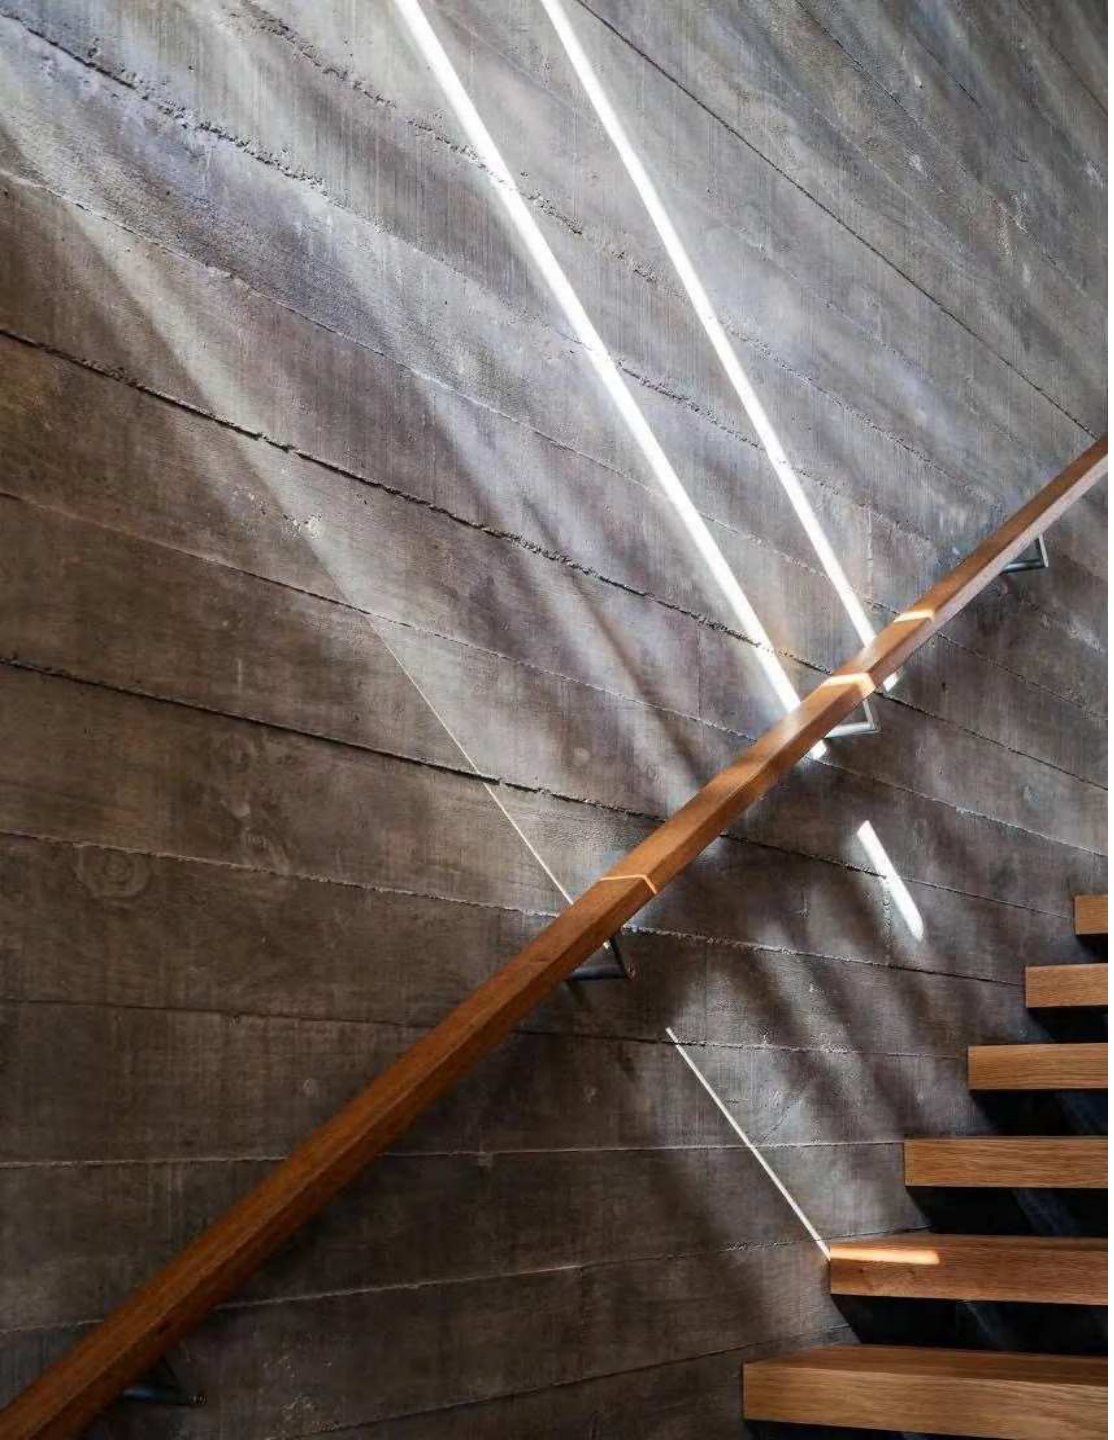
Size	**3000x600mm**
Thickness	**3-5mm**











WOOD CONCRETE BOARD

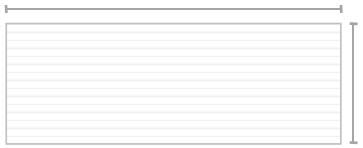
Impressions

The Wood Concrete Panel brings a warm and comfortable atmosphere with its natural wood grain and warm tones. Its clear texture and soft touch are ideal for creating a natural-style interior environment.

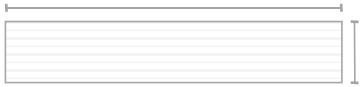
Application

Suitable for interior walls, furniture surfaces, etc., adding a touch of natural warmth to home spaces.

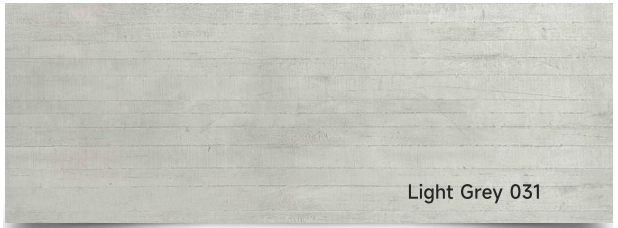
Specification



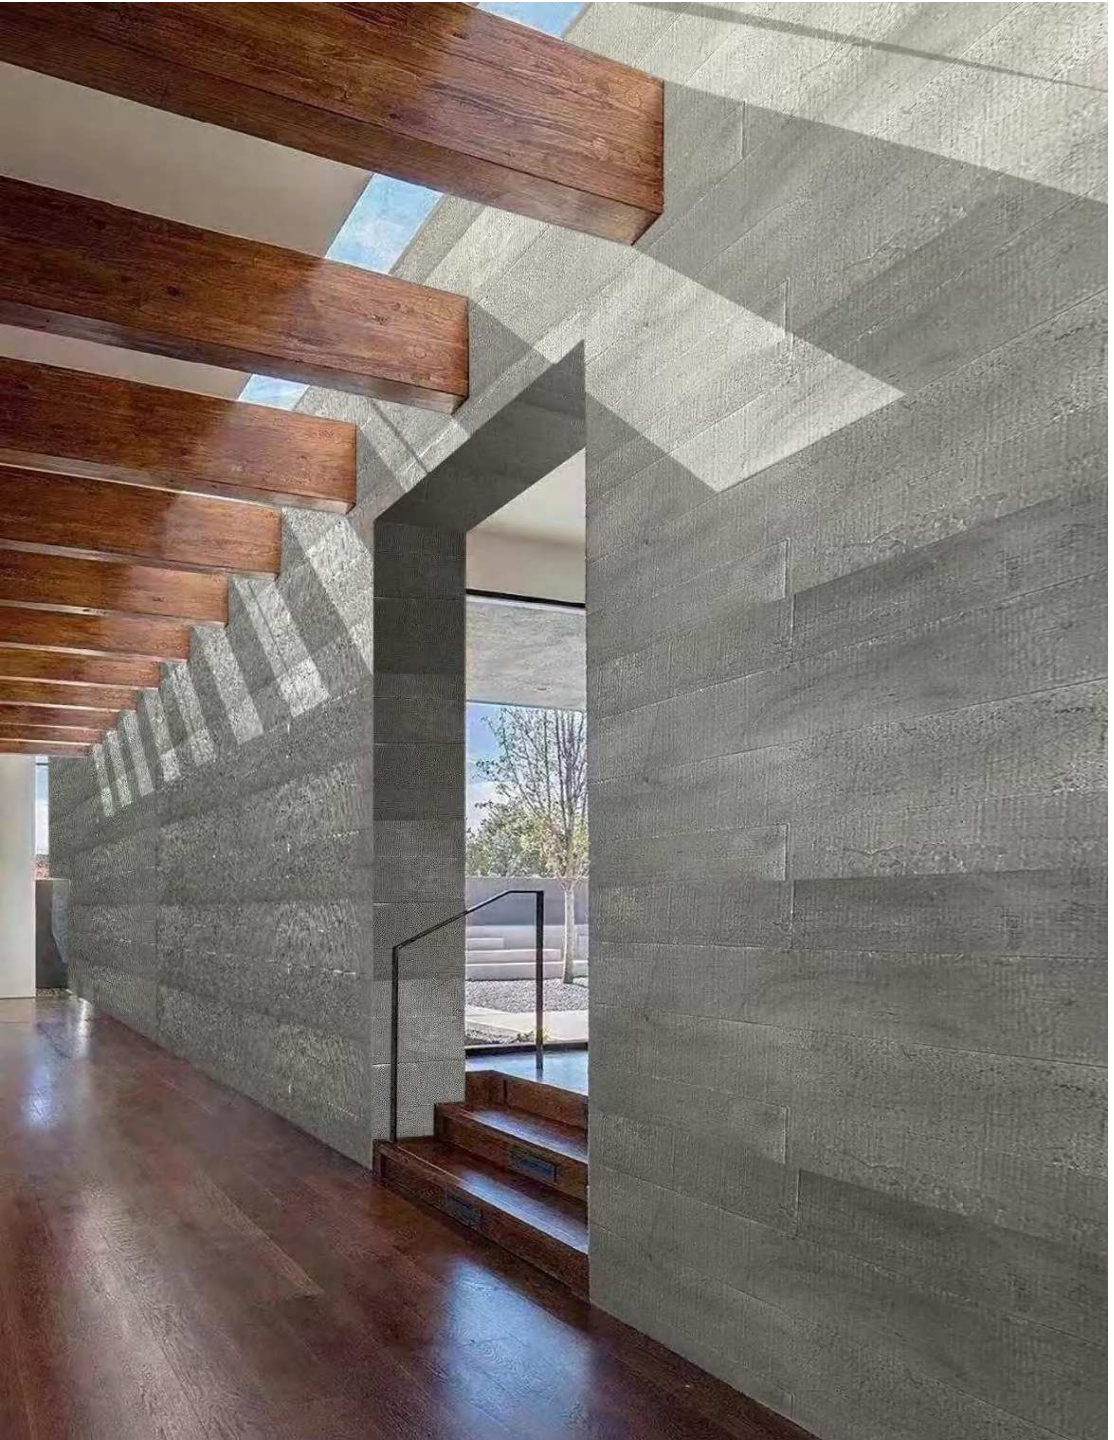
Size	**2930x1100mm**
Thickness	**3-5mm**



Size	**2930x550mm**
Thickness	**3-5mm**



Light weight · easy installation · easy care · Strong toughness · Flexible and bendable · Antifreeze · waterproofing · class A fireproof · Environmental friendly · multicolored



WOOD-CEMENT BOARD

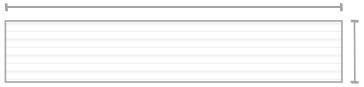
Impressions

The Wood-cement Board combines the unique wood grain texture with the solid texture of cement, presenting a new industrial aesthetic. Its surface is marked with natural wood grain imprints while maintaining the durability of cement, suitable for spaces that pursue a fusion of modernity and tradition.

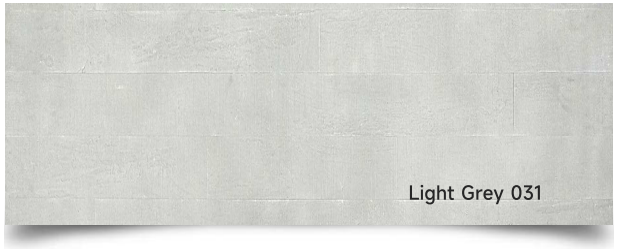
Application

Suitable for both indoor and outdoor applications, such as feature walls, decorative panels, and architectural elements that require a blend of modernity and tradition.

Specification



Size	**3000x600mm**
Thickness	**3-5mm**



Light weight · easy installation · easy care · Strong toughness · Flexible and bendable · Antifreeze · waterproofing · class A fireproof · Environmental friendly · multicolored

CEMENT BOARD

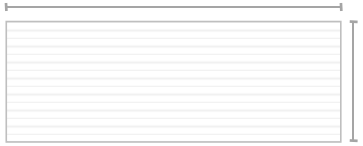
Impressions

The Cement Board presents a modern and fresh appearance with its simple lines and pure colors. Its smooth surface and uniform texture are perfect for modern minimalist interior decoration.。

Application

Recommended for interior walls, ceilings, furniture surfaces, etc., bringing a clean and lively feeling to modern homes or office spaces.

Specification



Size	**2380x1190mm**

LINE STONE BOARD

Impressions

The Line Stone Board with rough texture exhibits a primal and rustic beauty with its rugged texture and natural color. Its deep texture and solid feel are ideal for design styles that pursue a sense of nature and strength.

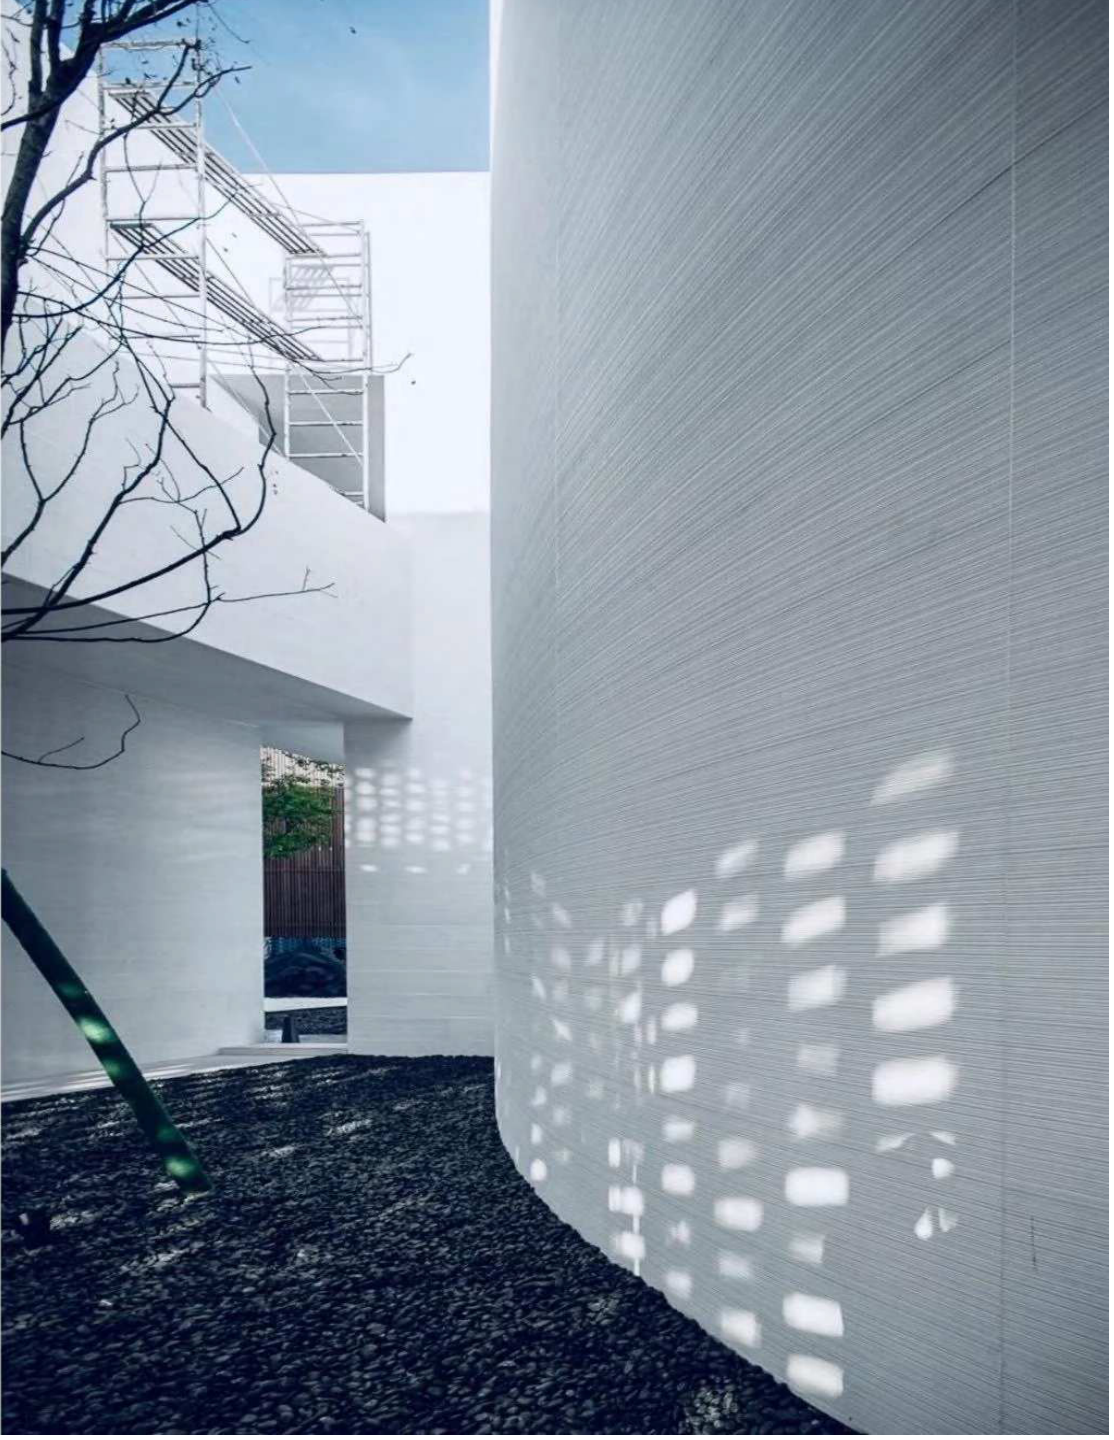
Application

Recommended for exterior building facades, columns, walls, etc., adding a sense of solidity and natural atmosphere to the architecture.

Specification

Size	**2400*600mm**
Thickness	**4-8mm**

Light weight | easy installation | easy care | Strong toughness | Flexible and bendable | Antifreeze | waterproofing | class A fireproof | Environmental friendly | multicolored



FINE LINE STONE

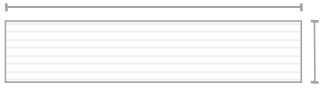
Impressions

The Fine Line Stone exhibits a sense of modernity with its clear lines and minimalist design. Its texture is delicate, and lines are smooth, making it suitable for wall decorations in modern designs, bringing a simple yet elegant style to the space.

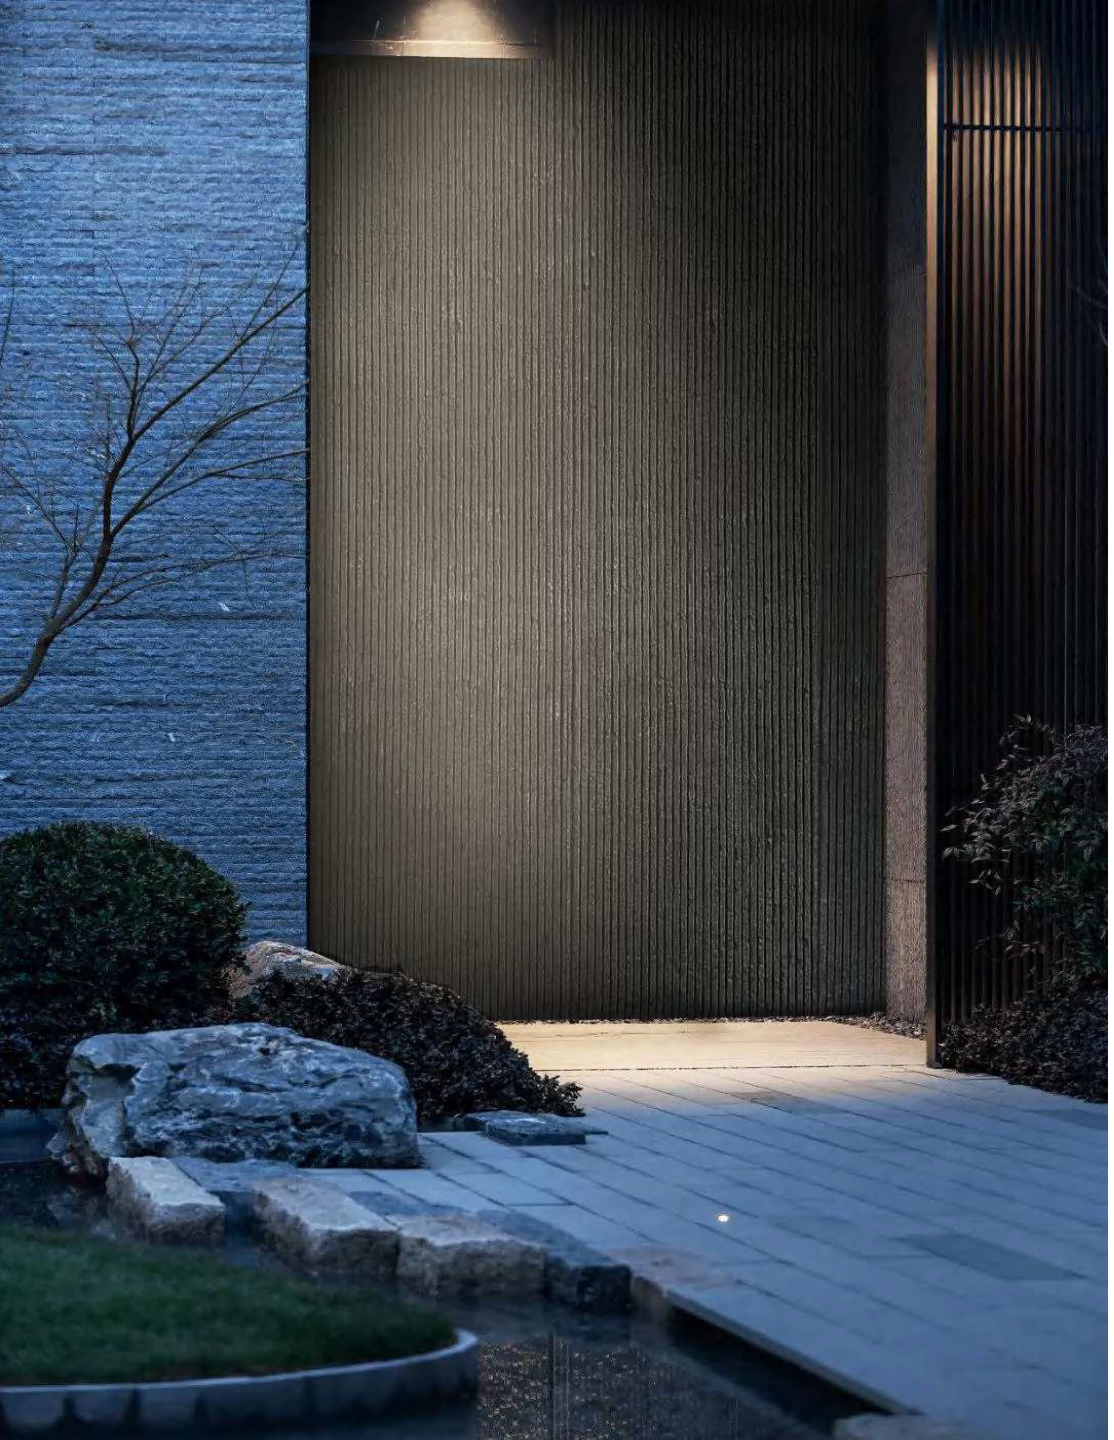
Application

Ideal for interior and exterior wall decorations, especially in contemporary settings, offering a sleek and elegant touch to the space.

Specification



Size	**2800x600mm**
Thickness	**3-5mm**



SQUARE LINE STONE

Impressions

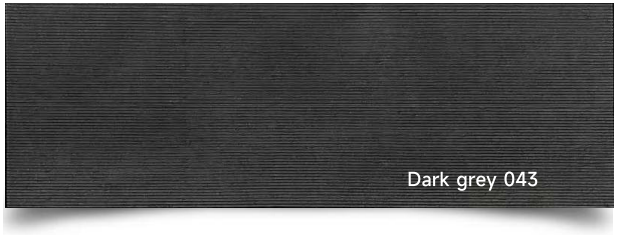
The Square Line Stone creates a sense of crisscrossing paths in the fields with its interwoven textures and natural colors. Its rich and varied textures and earthy colors are perfect for creating a natural and tranquil indoor or outdoor environment.

Application

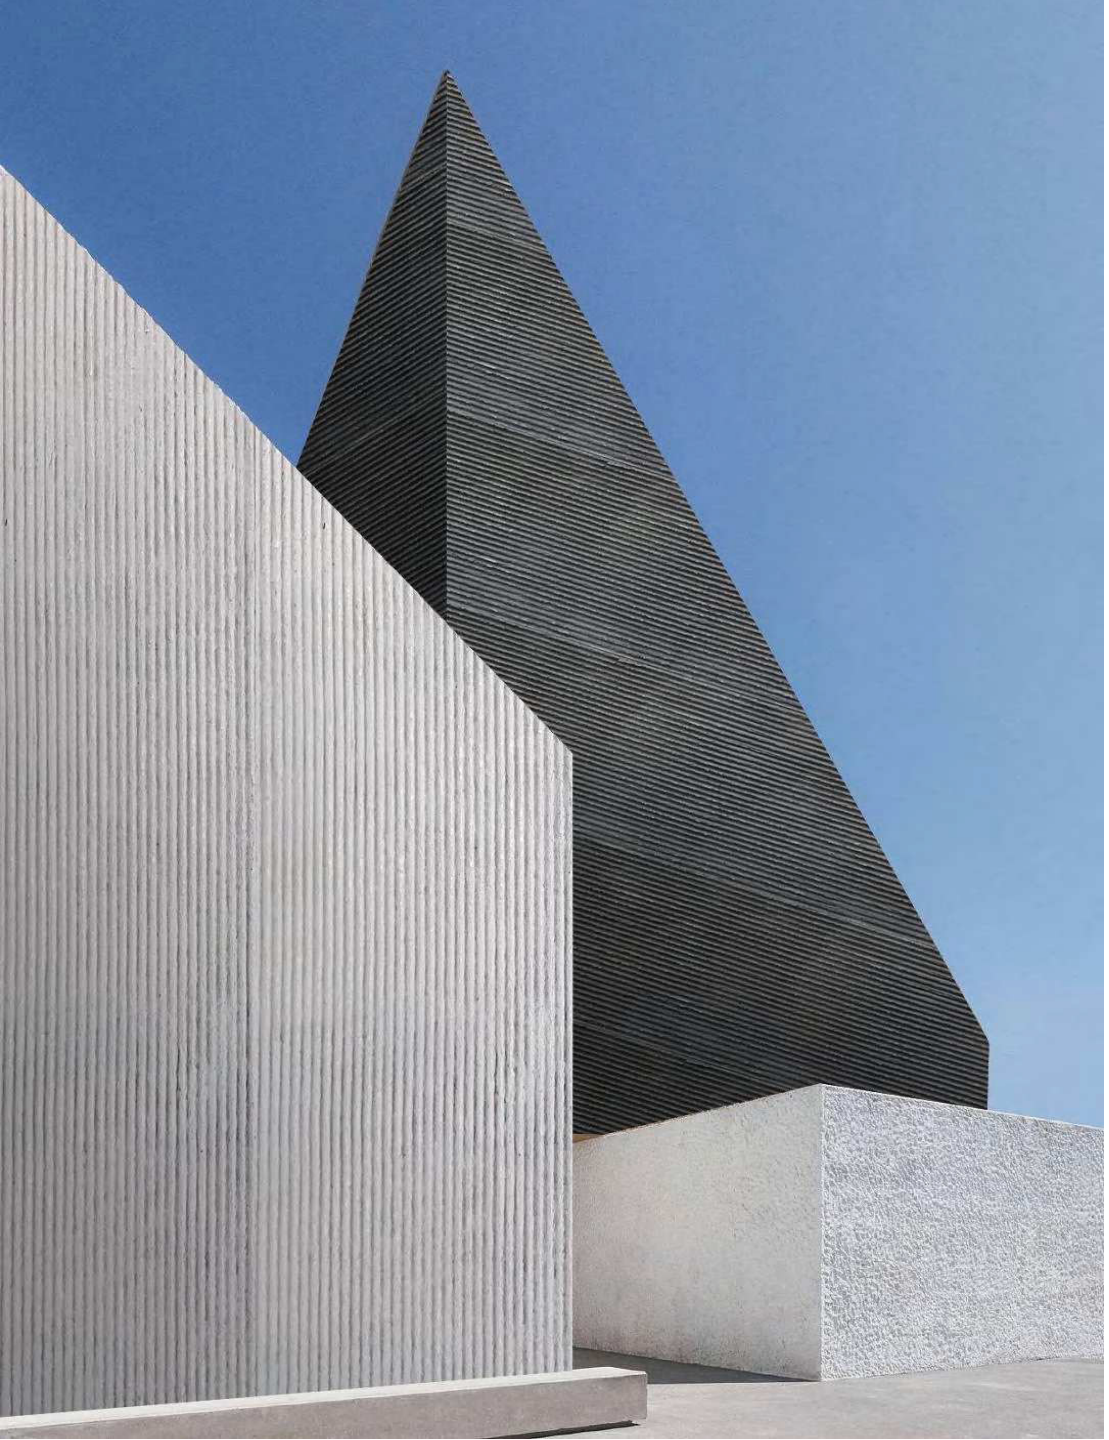
Perfect for both indoor and outdoor spaces, creating a serene and natural ambiance with its rich and varied textures.

Specificatio

Size	**2800x580mm**
Thickness	**2-8mm**



Light weight | easy installation | easy care | Strong toughness | Flexible and bendable | Antifreeze | waterproofing | class A fireproof | Environmental friendly | multicolored



ROUND LINE STONE

Impressions

The Round Line Stone, with its biomimetic textures, resembles the veins of nature, giving a sense of vitality. Its clear and vivid textures and colors are ideal for space designs that emphasize natural elements.

Application

Ideal for spaces that emphasize natural elements, with its lifelike textures and vivid colors, adding vitality to the design.

Specification

Size	**2800x595mm**
Thickness	**2-8mm**

Light weight | easy installation | easy care | Strong toughness | Flexible and bendable | Antifreeze | waterproofing | class A fireproof | Environmental friendly | multicolored

RIDGED STONE

Impressions

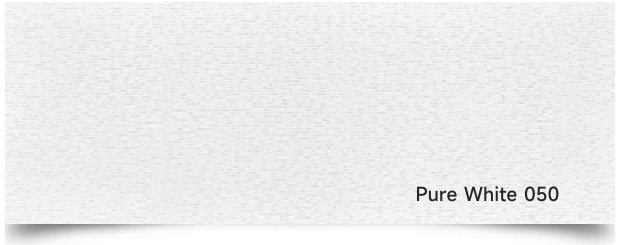
The Ridge Stone exhibits a strong visual impact with its prominent lines and three-dimensional texture. Its deep textures and distinct lines are suitable for indoor and outdoor walls that emphasize architectural structure and design.

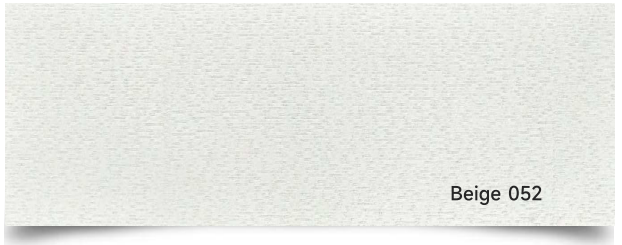
Application

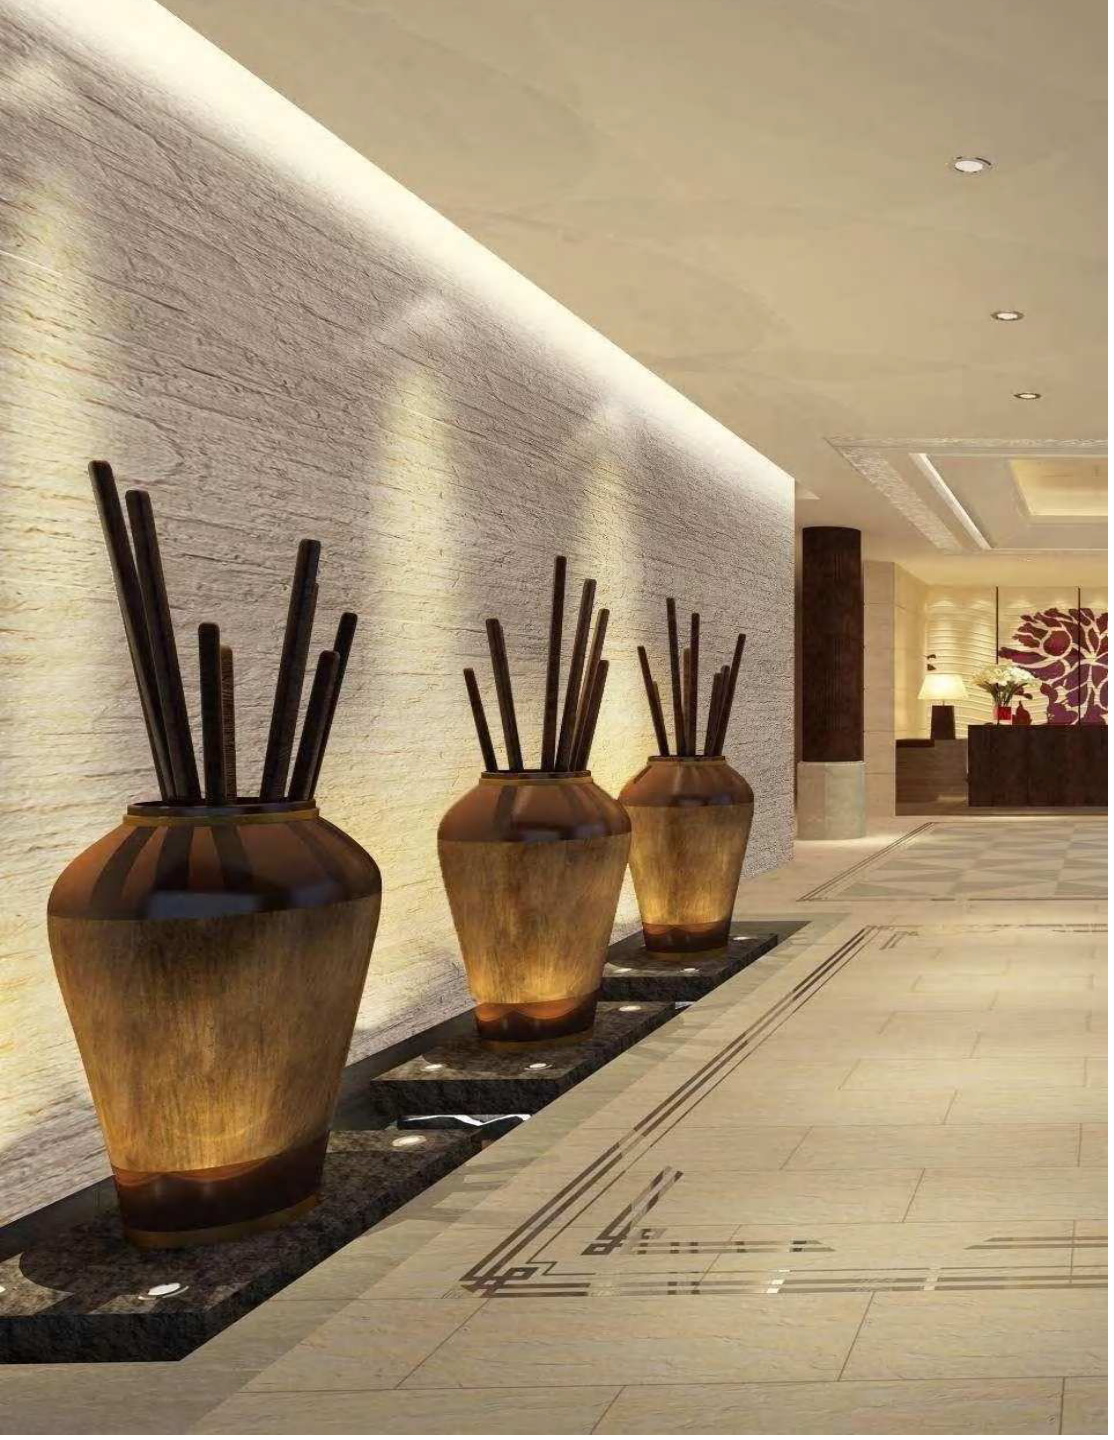
Suitable for both indoor and outdoor walls that require a strong visual impact, highlighting architectural structure and design with its pronounced textures and distinct lines.

Specification

Size	**2950x670mm**
Thickness	**2-10mm**







CLIFF STONE

Impressions

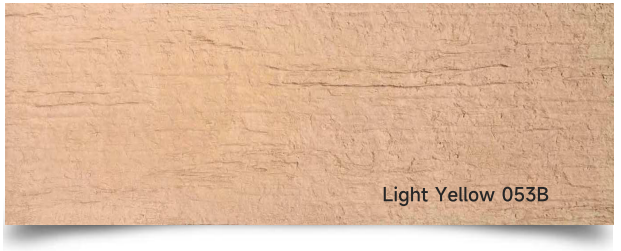
With its steep textures and hard texture, the Cliff Stone resembles the rugged cliffs in nature, offering a strong visual impact and natural beauty. Its profound textures and deep colors are suitable for space designs that showcase strength and nature.

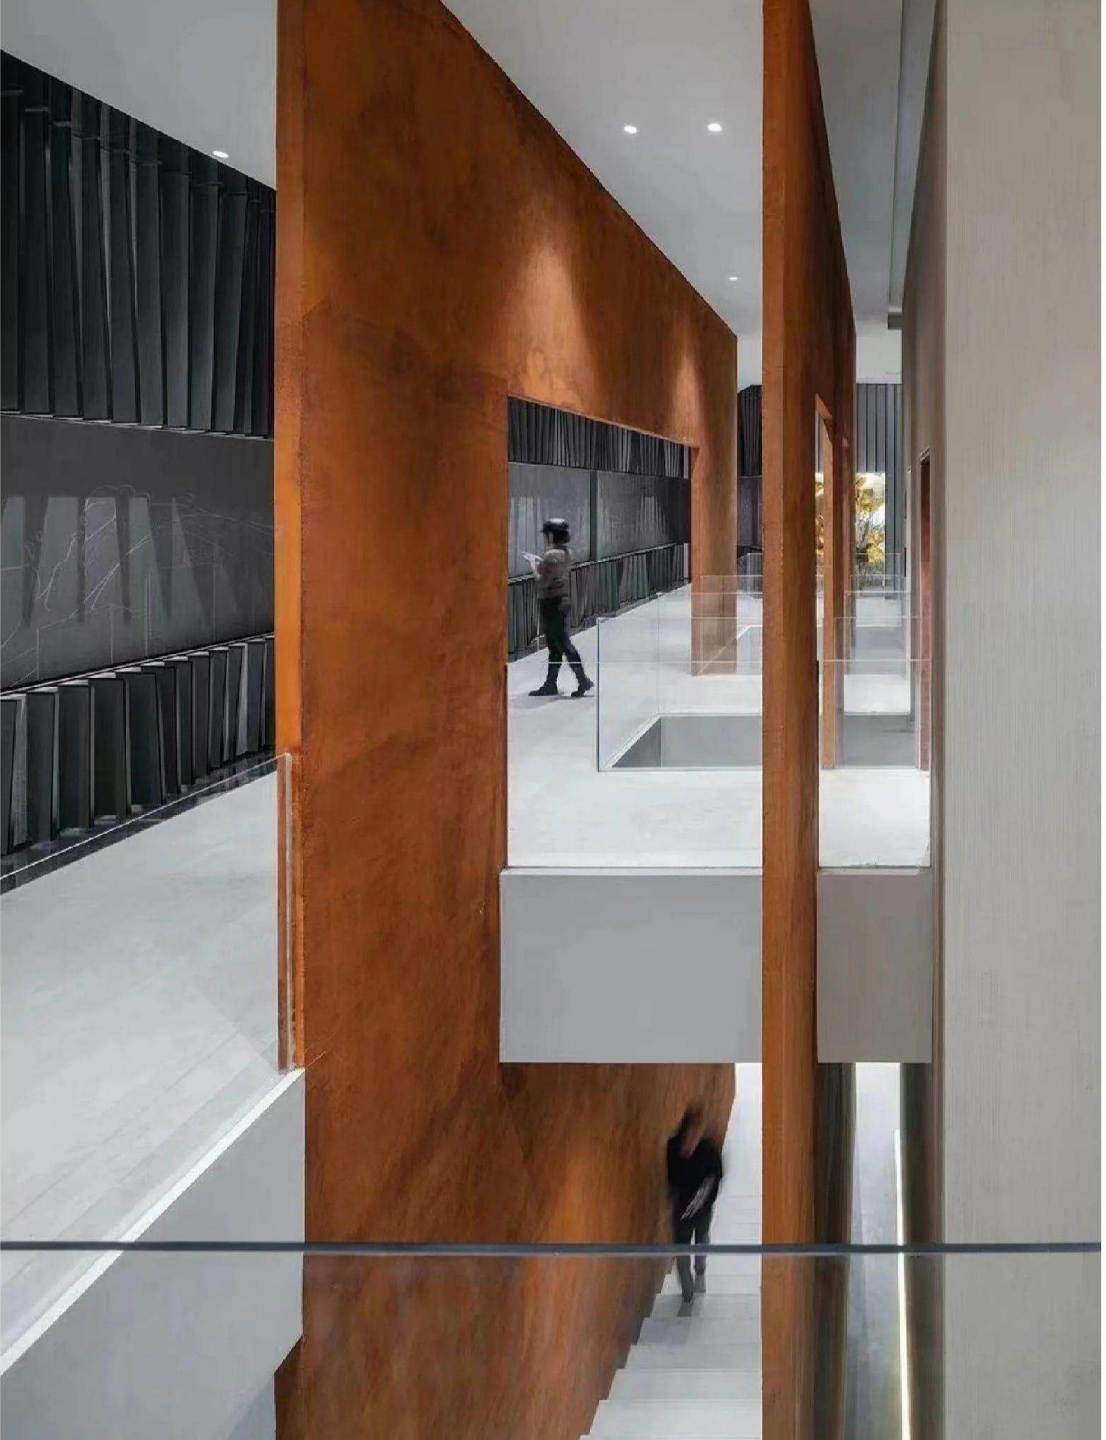
Application

Recommended for interior and exterior wall decorations, especially for places that need to emphasize a sense of strength and nature, such as gyms, climbing gyms, or modern art spaces.

Specification

Size	**2400x300mm**
Thickness	**2-9mm**





RUST BOARD

Impressions

The Rust Board, with its unique rust color and traces of time, presents a vintage yet fashionable aesthetic. Its surface features a natural rust effect with rich color variations, suitable for creating spaces with a sense of history and artistic atmosphere.

Application

Suitable for indoor walls, art exhibition spaces, coffee shops, etc., adding a vintage and artistic ambiance to the environment.

Specification

Size	**3040x1160mm / 2960x970mm**
Thickness	**3-5mm**

Light weight | easy installation | easy care | Strong toughness | Flexible and bendable | Antifreeze | waterproofing | class A fireproof | Environmental friendly | multicolored

FOAMED ALUMINIUM ALLOY BOARD

Impressions

The Foamed Aluminum Alloy Board, with its light texture and metallic luster, exhibits a modern and technological appearance. Its smooth surface and uniform texture are suitable for indoor and outdoor designs that require a sense of lightness and modernity.

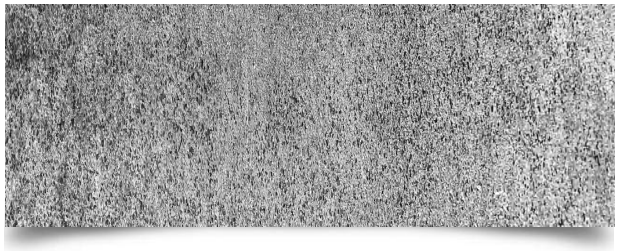
Application

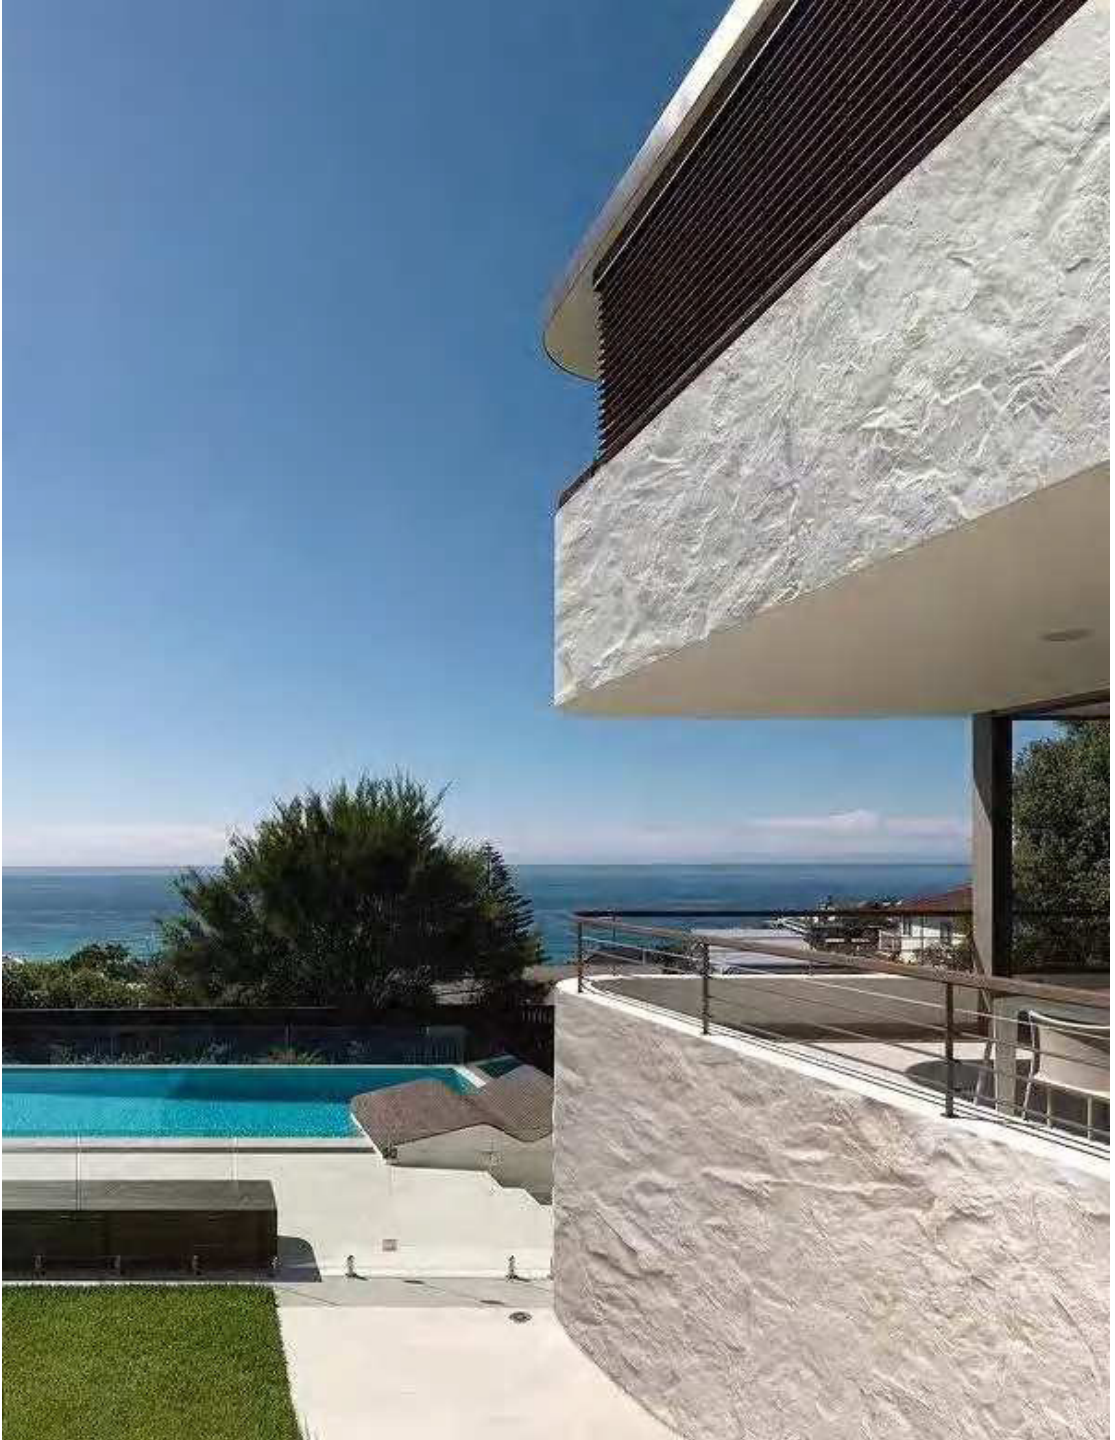
Recommended for interior and exterior walls, furniture design, vehicle interiors, etc., bringing a sense of technology and practicality to modern life.

Specification

Size	**2400x1200mm**
Thickness	**3-5mm**

Size	**2400x600mm**
Thickness	**3-5mm**





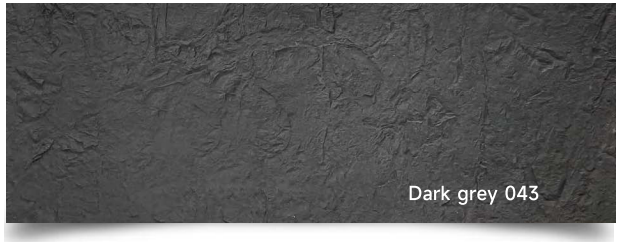
NEW ROCK CUT STONE

Impressions

The New Rock Cut Stone Panel, with its rugged textures and primitive texture, as if split by a giant axe, presents a sense of primitive power and natural beauty. Its deep textures and natural colors are suitable for space designs that showcase natural strength and artistic sensibility.

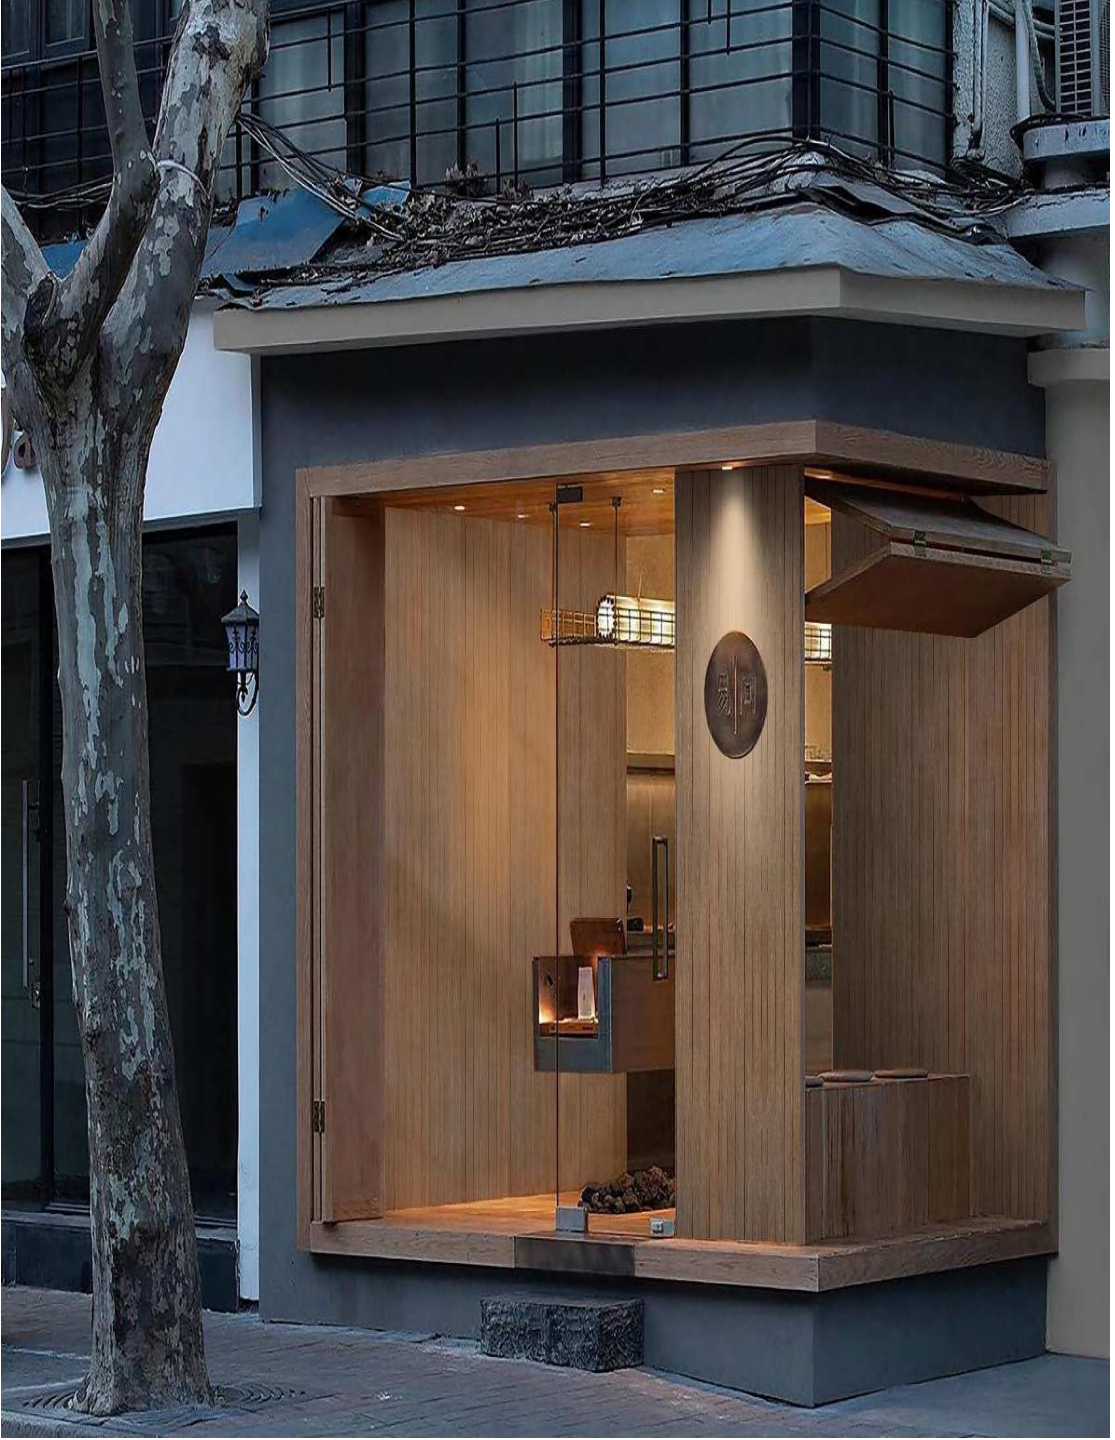
Application

Suitable for interior and exterior walls, art installations, characteristic buildings, etc., bringing a sense of primitive power and artistry to the environment.



Specification

Size	**3000x1145mm**
Thickness	**3-8mm**



WOOD FENCE

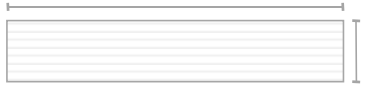
Impressions

The Wood Fence, with its fine wooden lattice and warm tones, creates a cozy and orderly sense of space. Its clear textures and smooth lines are suitable for interior designs that require a sense of warmth and order.

Application

Recommended for interior partitions, wall decorations, furniture design, etc., bringing warmth and order to the space.

Specification



Size	**2900x300mm**
Thickness	**3-5mm**

Light weight | easy installation | easy care | Strong toughness | Flexible and bendable | Antifreeze | waterproofing | class A fireproof | Environmental friendly | multicolored

TRAVERTINE OCEANIC

Impressions

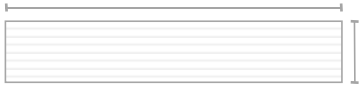
With textures that resemble the erosion caused by sea winds and waves, the Sea Cave Stone exhibits a natural beauty that has withstood the test of time. Suitable for creating spaces that coexist with nature and a sense of history.

Application

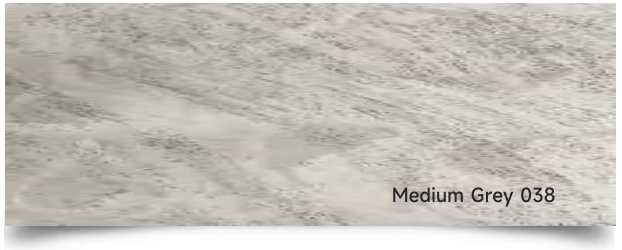
Recommended for interior and exterior wall decorations, garden landscapes, and other applications, especially suitable for marine-themed or natural-style spaces.

Specification

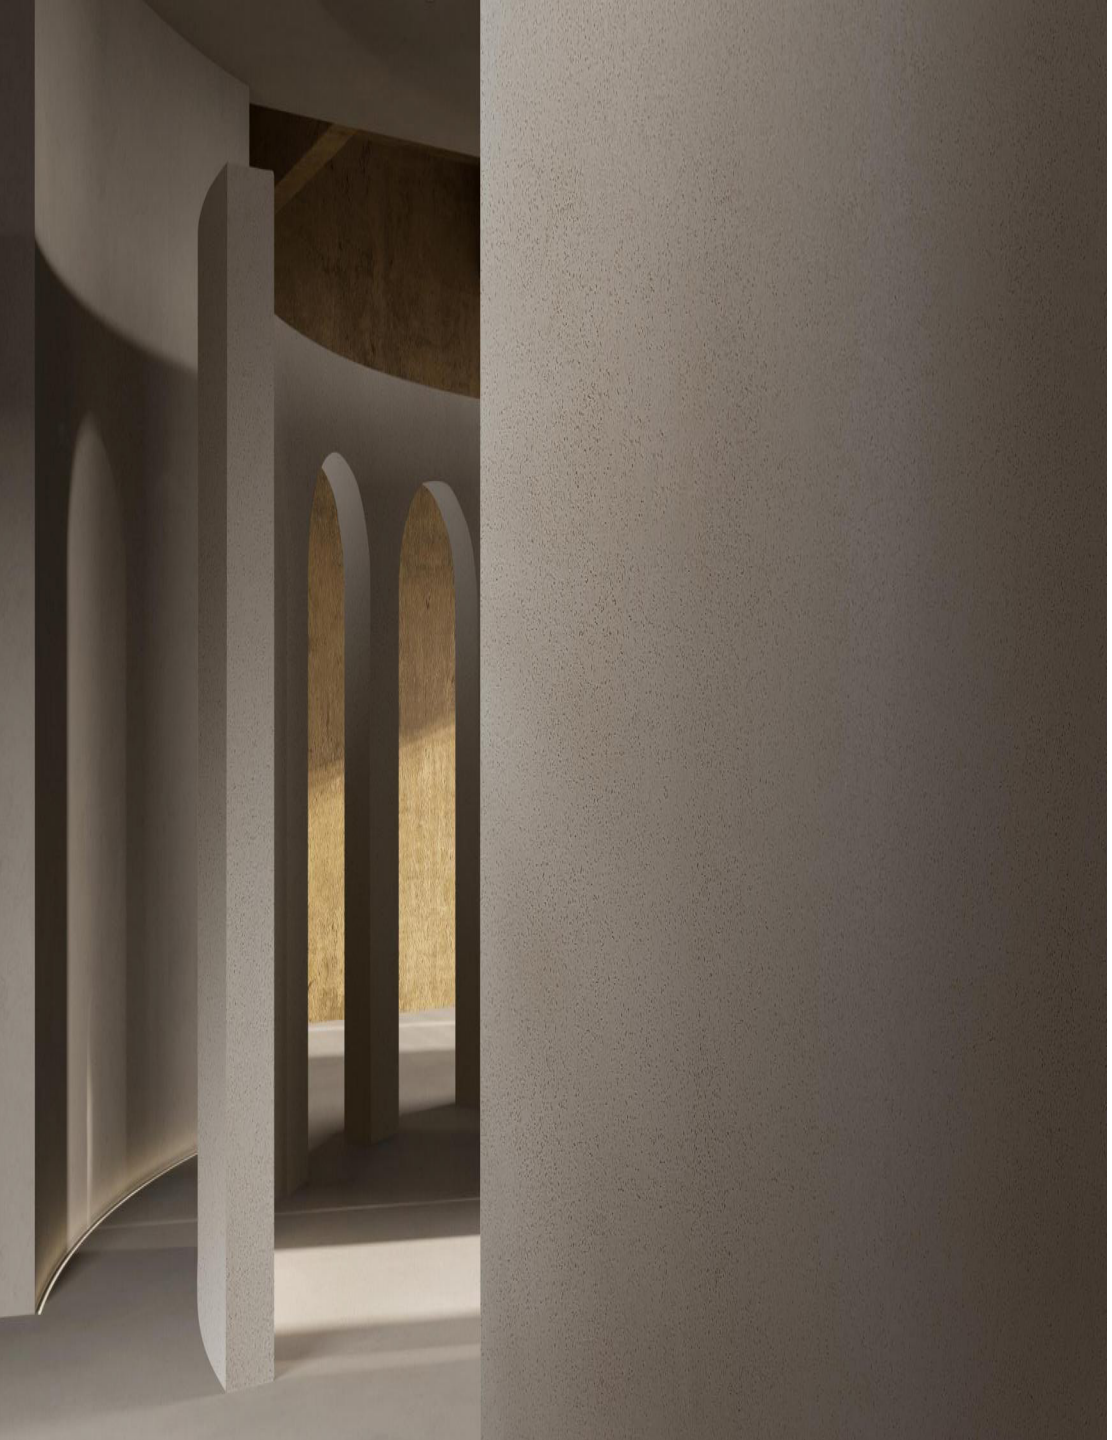
Size	**2400x1200mm**
Thickness	**3-5mm**



Size	**2400x600mm**
Thickness	**3-5mm**



Light weight · easy installation · easy care · Strong toughness · Flexible and bendable · Antifreeze · waterproofing · class A fireproof · Environmental friendly · multicolored



Impressions

The New Travertine features evenly distributed caves without distinctive textures, presenting a modern aesthetic that is simple yet elegant. Its smooth surface and uniform cave sizes are suitable for interior designs that pursue minimalism.

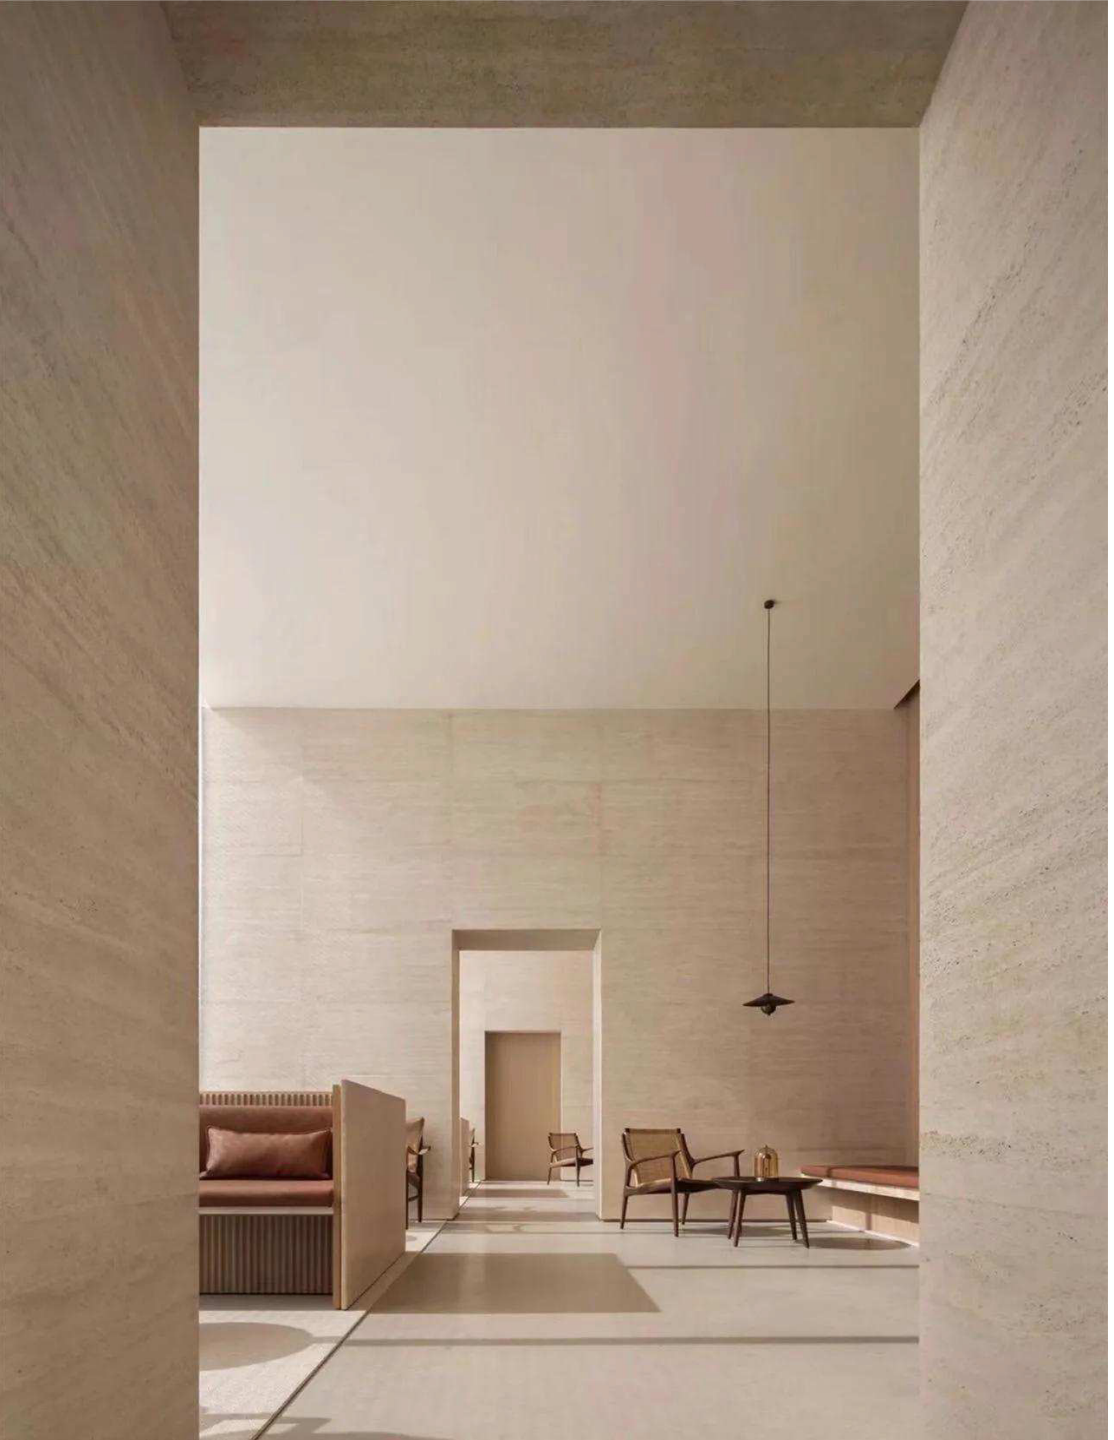
Application

Suitable for interior walls, modern art spaces, commercial spaces, etc., bringing a modern minimalist style to the environment.

Specification

Size	**2940*580mm**
Thickness	**3-5mm**

NEW TRAVERTINO



Impressions

The Huge Travertine exudes a grand and expansive visual impression, creating a sense of spaciousness and depth. It does not feature particularly large holes but rather uses overall texture and color combinations to create a broad and distant visual effect.

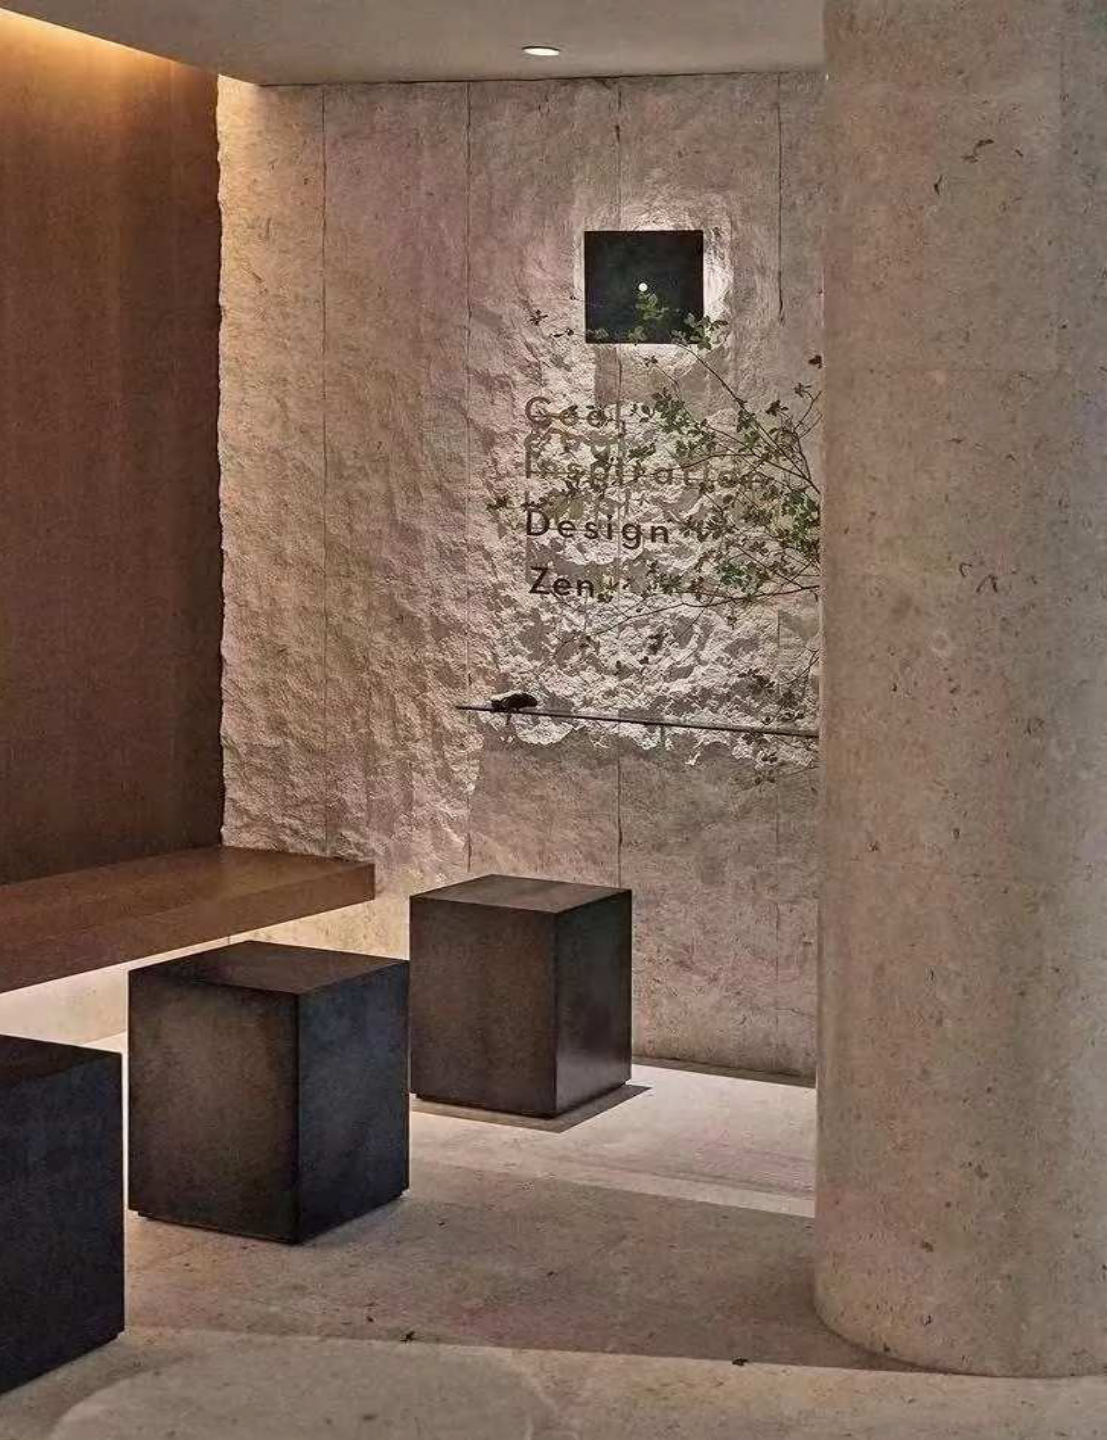
Application

Suitable for interior and exterior wall decorations, especially for places that need to emphasize a sense of space and grandeur, such as hotel lobbies and exhibition halls.

Specification

Size	**2940*580mm**
Thickness	**3-5mm**

HUGE TRAVERTINO



STARMOON STONE

Impressions

The Star Moon Stone, with its textures resembling the undulations of the lunar surface, presents a mysterious and dreamy aesthetic. Its delicate textures, akin to the lunar craters, bring a wondrous experience of space exploration to interior spaces.

Application

Suitable for interior walls, technology-themed spaces, planetariums, etc., adding a sense of cosmic exploration mystery to the environment.

Specification

Size	**3260x1200mm**
Thickness	**5-13mm**

MOONSCAPE STONE

Impressions

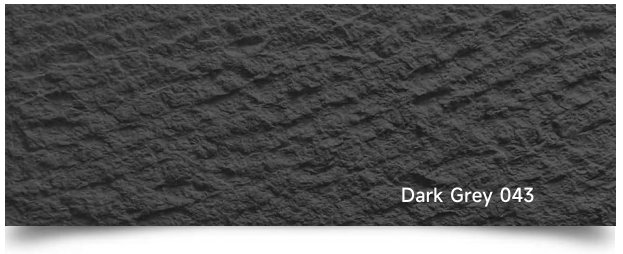
The Moonscape Stone, with its more pronounced textural ravines, exhibits a stronger sense of height difference and three-dimensionality compared to the Star and Moon Stone. Its profound textures, resembling the lunar valleys, bring a sense of depth and adventure to the space.

Application

Suitable for interior and exterior wall decorations, especially for places that need to emphasize natural landforms and an adventurous atmosphere, such as themed restaurants and adventure experience halls.

Specification

Size	**1660x600mm**
Thickness	**2-13mm**



DACITE

Impressions

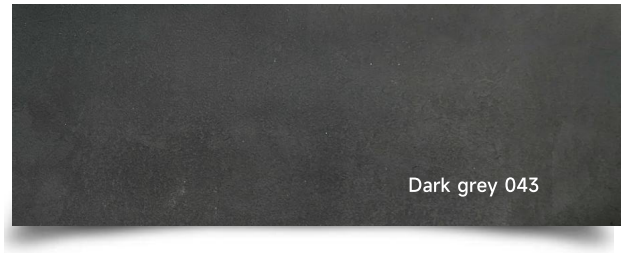
With its unique textures and solid texture, the Dacite exhibits a stable and elegant natural beauty. Its surface textures are delicate, and the color is deep, suitable for creating a high-end and atmospheric interior space.

Application

Recommended for interior wall decorations in high-end hotels and business clubs, adding a sense of stability and nobility to the environment.

Specification

Size	**3040*1160mm**
Thickness	**4-6mm**



CHARCOAL BURNT WOOD BOARD

Impressions

The Carbonized Wood, with its deep brown tones and unique carbonization textures, presents a retro and warm atmosphere. Its smooth surface and hard texture are suitable for creating a cozy and durable home environment.

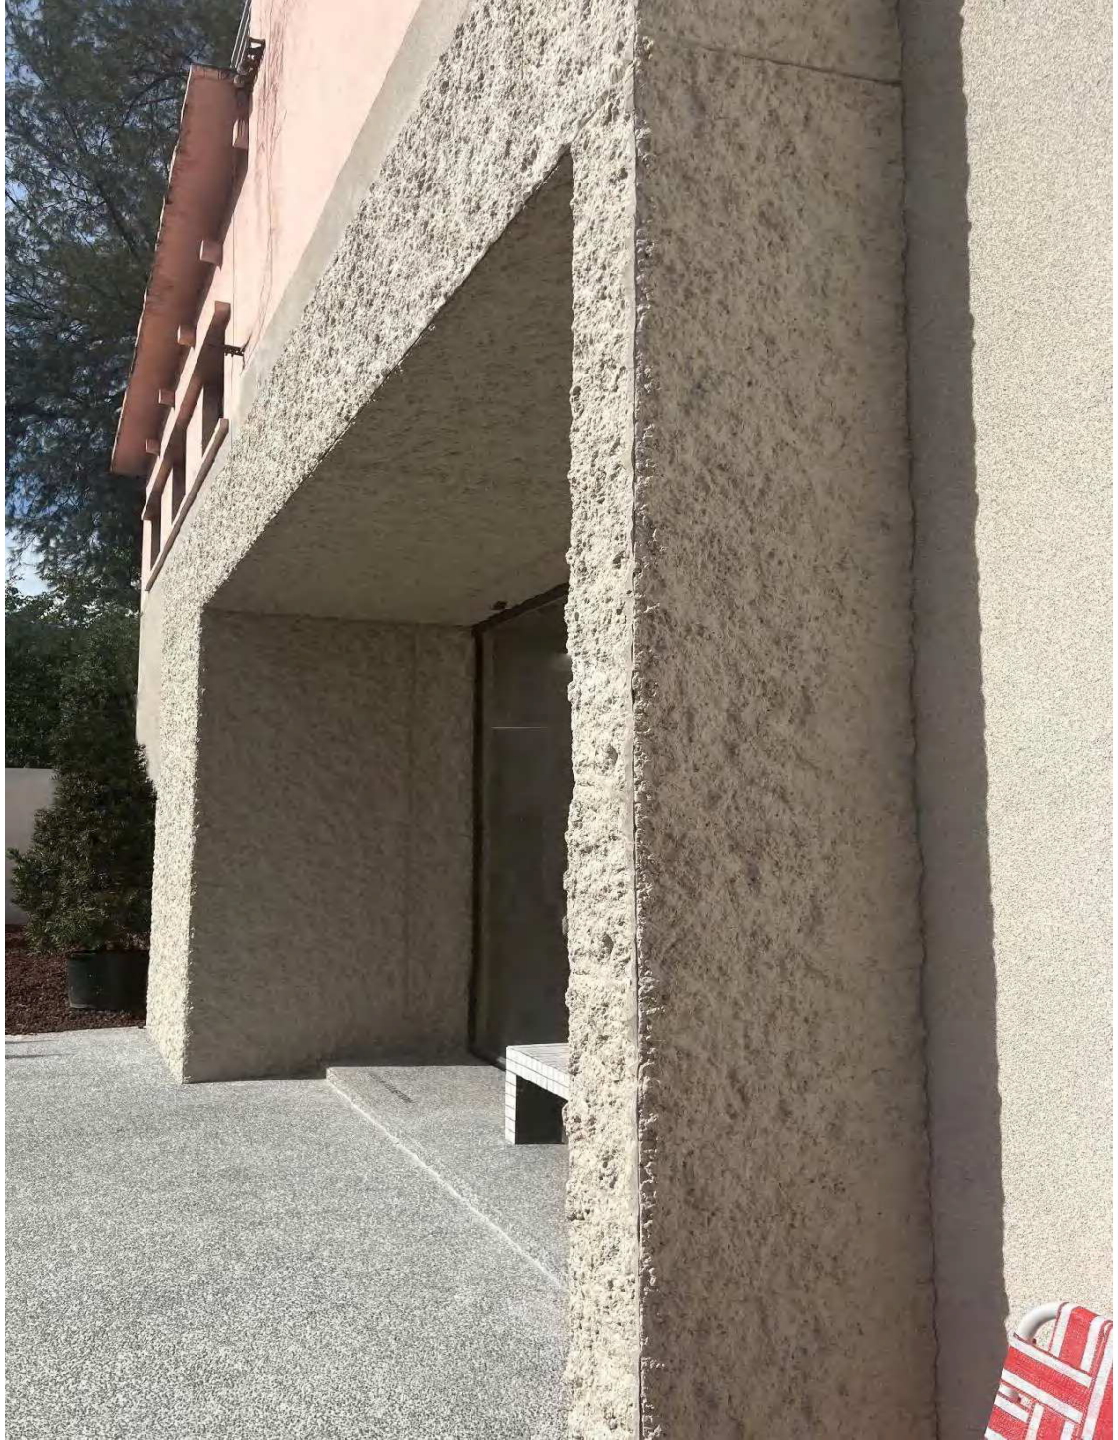
Application

Suitable for walls, furniture making, etc., bringing a retro warmth to the home space.

Specification

Size	**3040x550mm**
Thickness	**3-5mm**

Light weight · easy installation · easy care · Strong toughness · Flexible and bendable · Antifreeze · waterproo fing · class A fireproof · Environmental friendly · multicolo ured



AEROLITE

Impressions

The Lost Ruins, with textures that seem to have been weathered by time, exhibit an ancient and mysterious beauty. Its surface bears the marks of history, with a weathered color, suitable for creating spaces with a sense of history and exploration.

Application

Suitable for themed restaurants, museums, exhibition spaces, etc., bringing a sense of mystery from ancient ruins to the environment.

Specification

Size	**2950*1170mm**
Thickness	**5-17mm**

SAWING WOOD BOARD

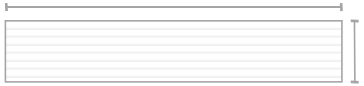
Impressions

The Sawing Wood Board, with its clear wood grain and natural color, presents a simple and genuine wood aesthetic. Its clear textures and gentle touch are suitable for creating a cozy and natural interior environment.

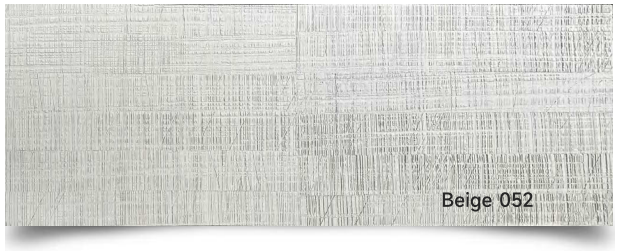
Application

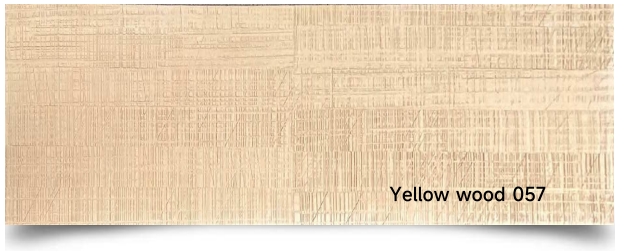
Suitable for interior walls, furniture surfaces, etc., bringing a natural and simple feeling to the home space.

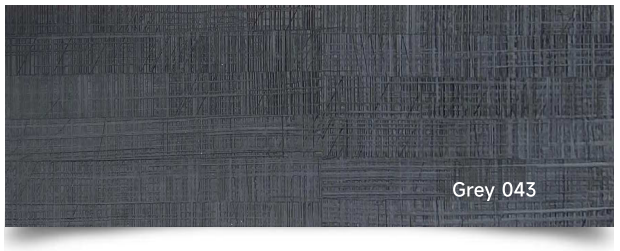
Specification

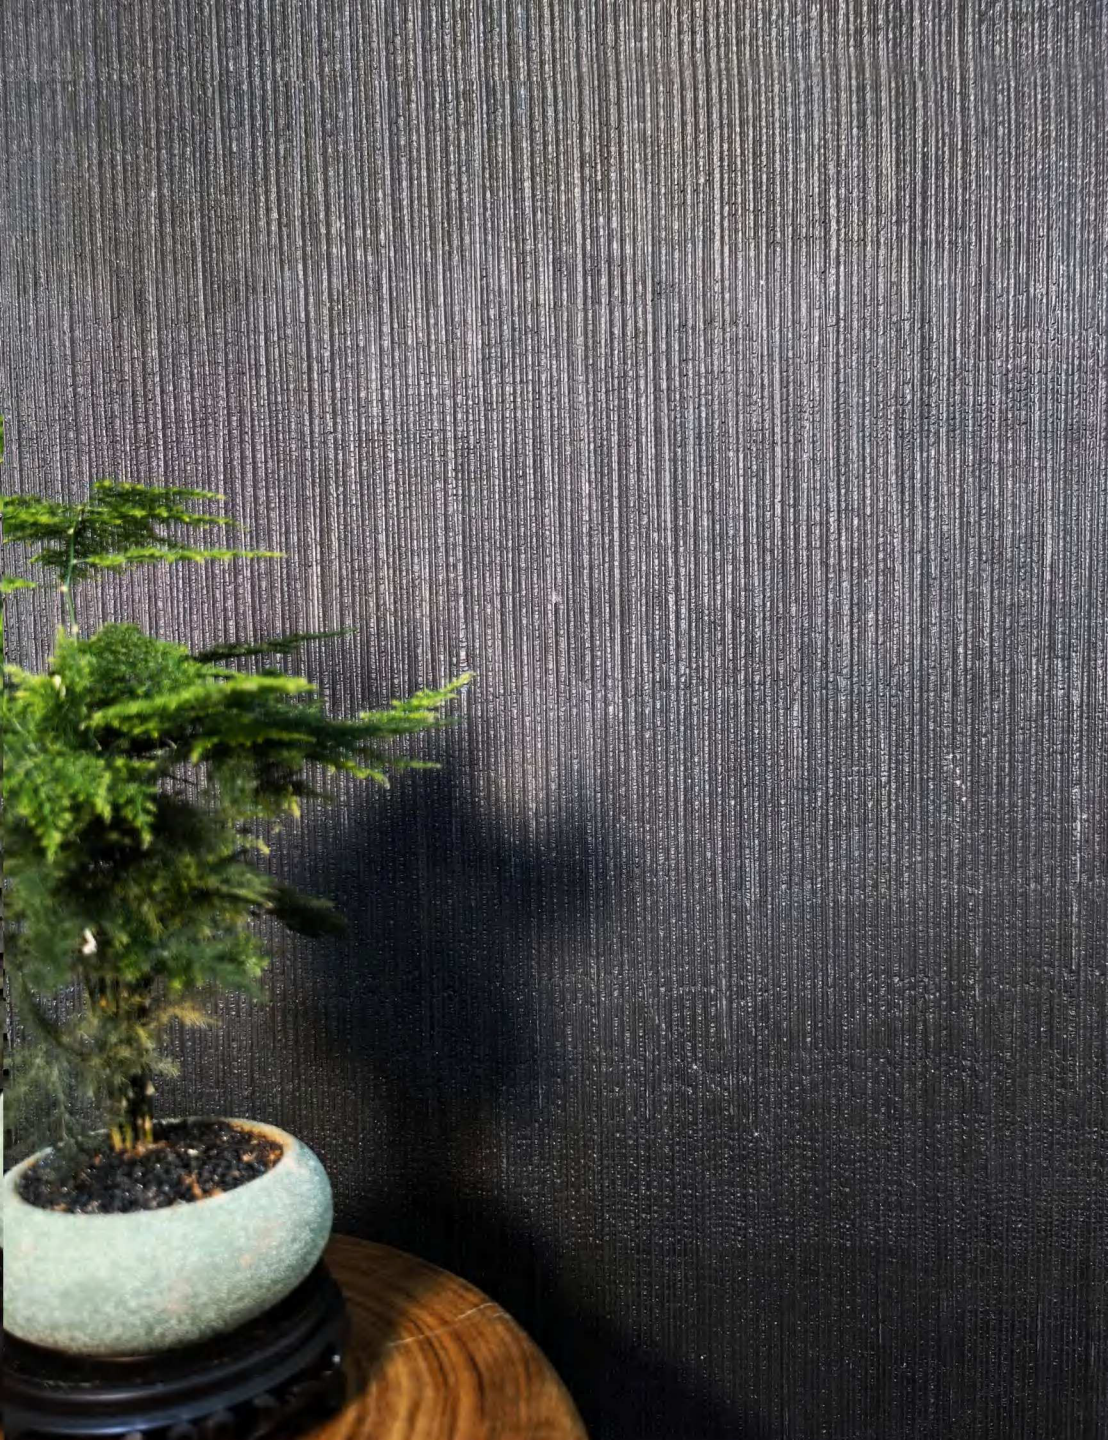


Size	**3150*580mm**
Thickness	**7-10mm**









ZEN WOOD PANEL

Impressions

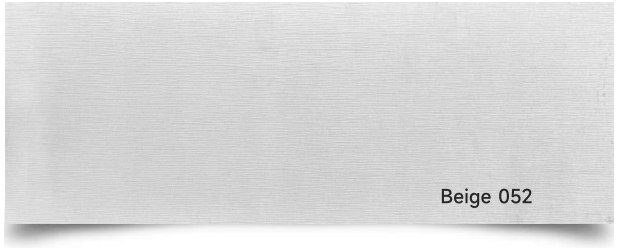
The Zen Wood Panel, with its simple textures and deep colors, presents a tranquil and Zen-like beauty. Its simple textures and steady colors are suitable for creating spaces of quietude and contemplation.

Application

Suitable for studies, tea rooms, meditation spaces, etc., bringing a tranquil and Zen-like atmosphere to the environment.

Specification

Size	**2900*600mm**
Thickness	**3-5mm**



PROJECT REGULAR-USE SERIES

WEAVING

Impressions

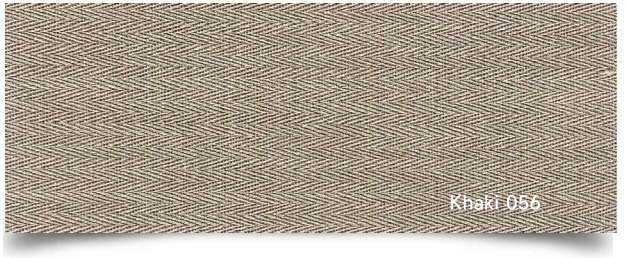
The Weaving Borad, with its handcrafted texture and natural hues, presents a simple and warm atmosphere. Its delicate textures and soft touch are suitable for creating a comfortable and cozy interior environment.

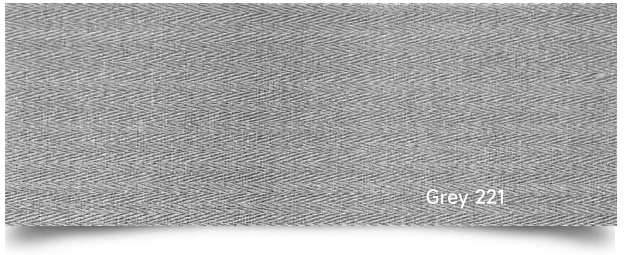
Application

Suitable for interior wall decorations, furniture embellishments, etc., bringing a warmth of craftsmanship to the home space.

Specification

Size	**1500x600mm**
Thickness	**3-5mm**





TRAVERTINE

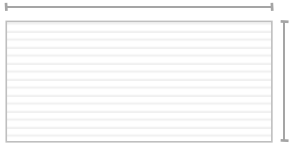
Impressions

With its unique cave textures, the Travertine exhibits a natural and primitive beauty. Its surface is dotted with caves of various sizes, resembling the marks of weathering, suitable for expressing the art of nature and time.

Application

Recommended for interior and exterior wall decorations, garden landscape designs, etc., especially suitable for spaces designed in a natural style.

Specification



Size	**1200x600mm**
Thickness	**3-5mm**
