# RIDGED STONE

## Impressions

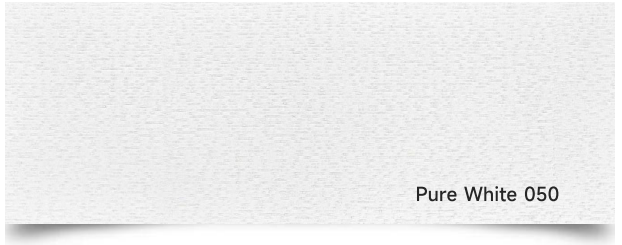
The Ridge Stone exhibits a strong visual impact with its prominent lines and three-dimensional texture. Its deep textures and distinct lines are suitable for indoor and outdoor walls that emphasize architectural structure and design.

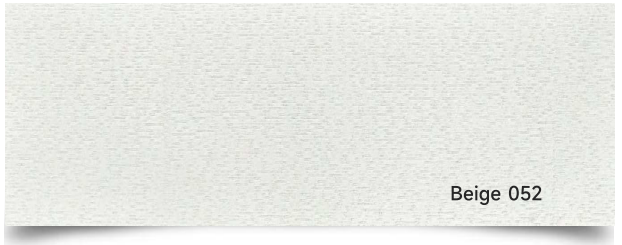
## Application

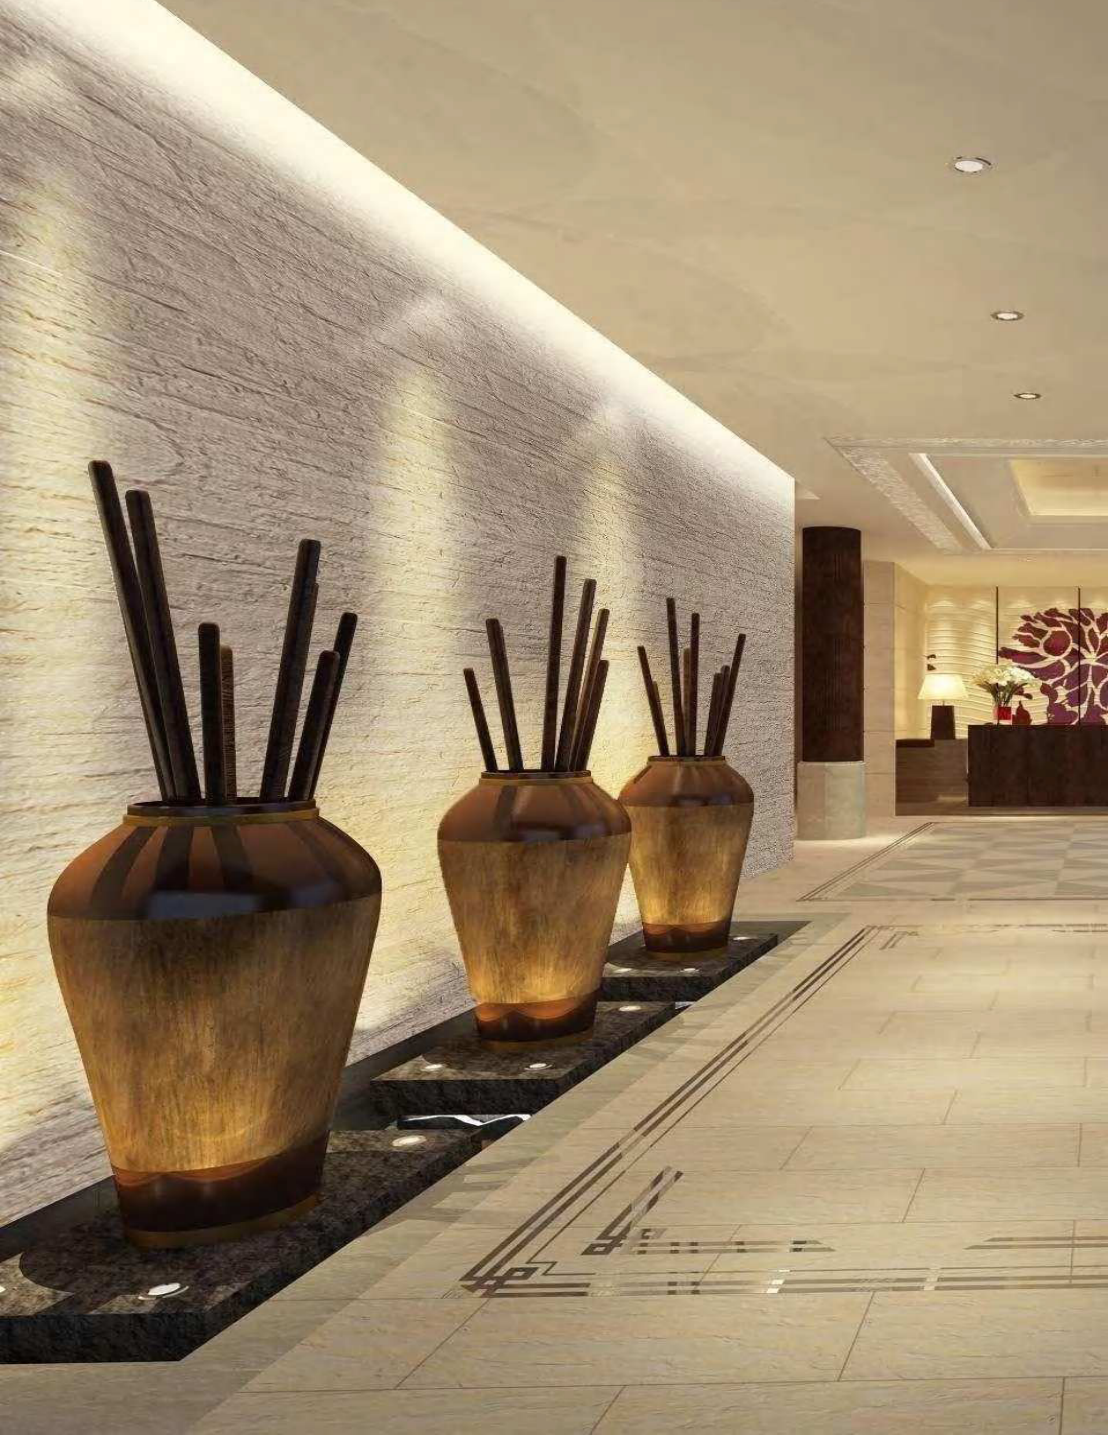
Suitable for both indoor and outdoor walls that require a strong visual impact, highlighting architectural structure and design with its pronounced textures and distinct lines.

**Specification**

| | |
|---|---|
| Size | **2950x670mm** |
| Thickness | **2-10mm** |







# CLIFF STONE

## Impressions

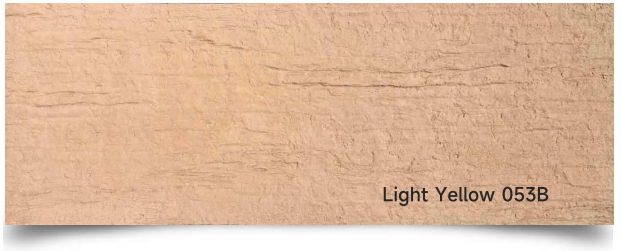
With its steep textures and hard texture, the Cliff Stone resembles the rugged cliffs in nature, offering a strong visual impact and natural beauty. Its profound textures and deep colors are suitable for space designs that showcase strength and nature.

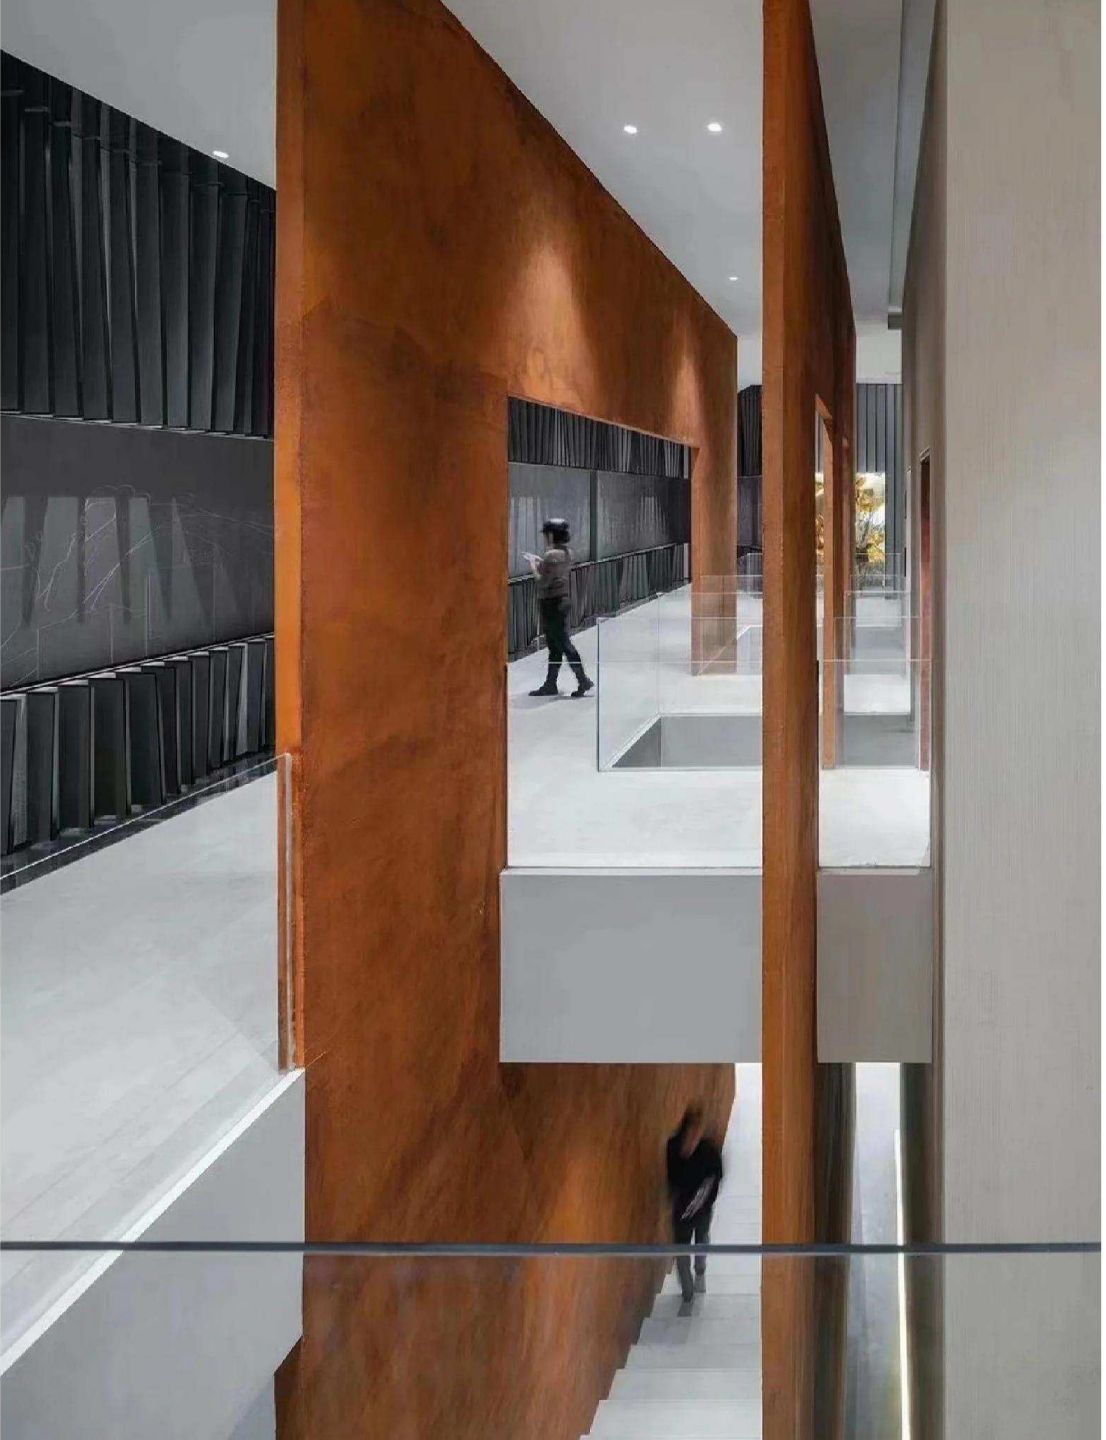
## Application

Recommended for interior and exterior wall decorations, especially for places that need to emphasize a sense of strength and nature, such as gyms, climbing gyms, or modern art spaces.

**Specification**

| | |
|---|---|
| Size | **2400x300mm** |
| Thickness | **2-9mm** |





# RUST BOARD

## Impressions

The Rust Board, with its unique rust color and traces of time, presents a vintage yet fashionable aesthetic. Its surface features a natural rust effect with rich color variations, suitable for creating spaces with a sense of history and artistic atmosphere.

## Application

Suitable for indoor walls, art exhibition spaces, coffee shops, etc., adding a vintage and artistic ambiance to the environment.

**Specification**

| | |
|---|---|
| Size | **3040x1160mm / 2960x970mm** |

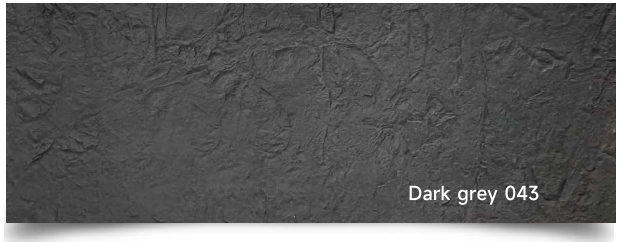
# NEW ROCK CUT STONE

## Impressions

The New Rock Cut Stone Panel, with its rugged textures and primitive texture, as if split by a giant axe, presents a sense of primitive power and natural beauty. Its deep textures and natural colors are suitable for space designs that showcase natural strength and artistic sensibility.

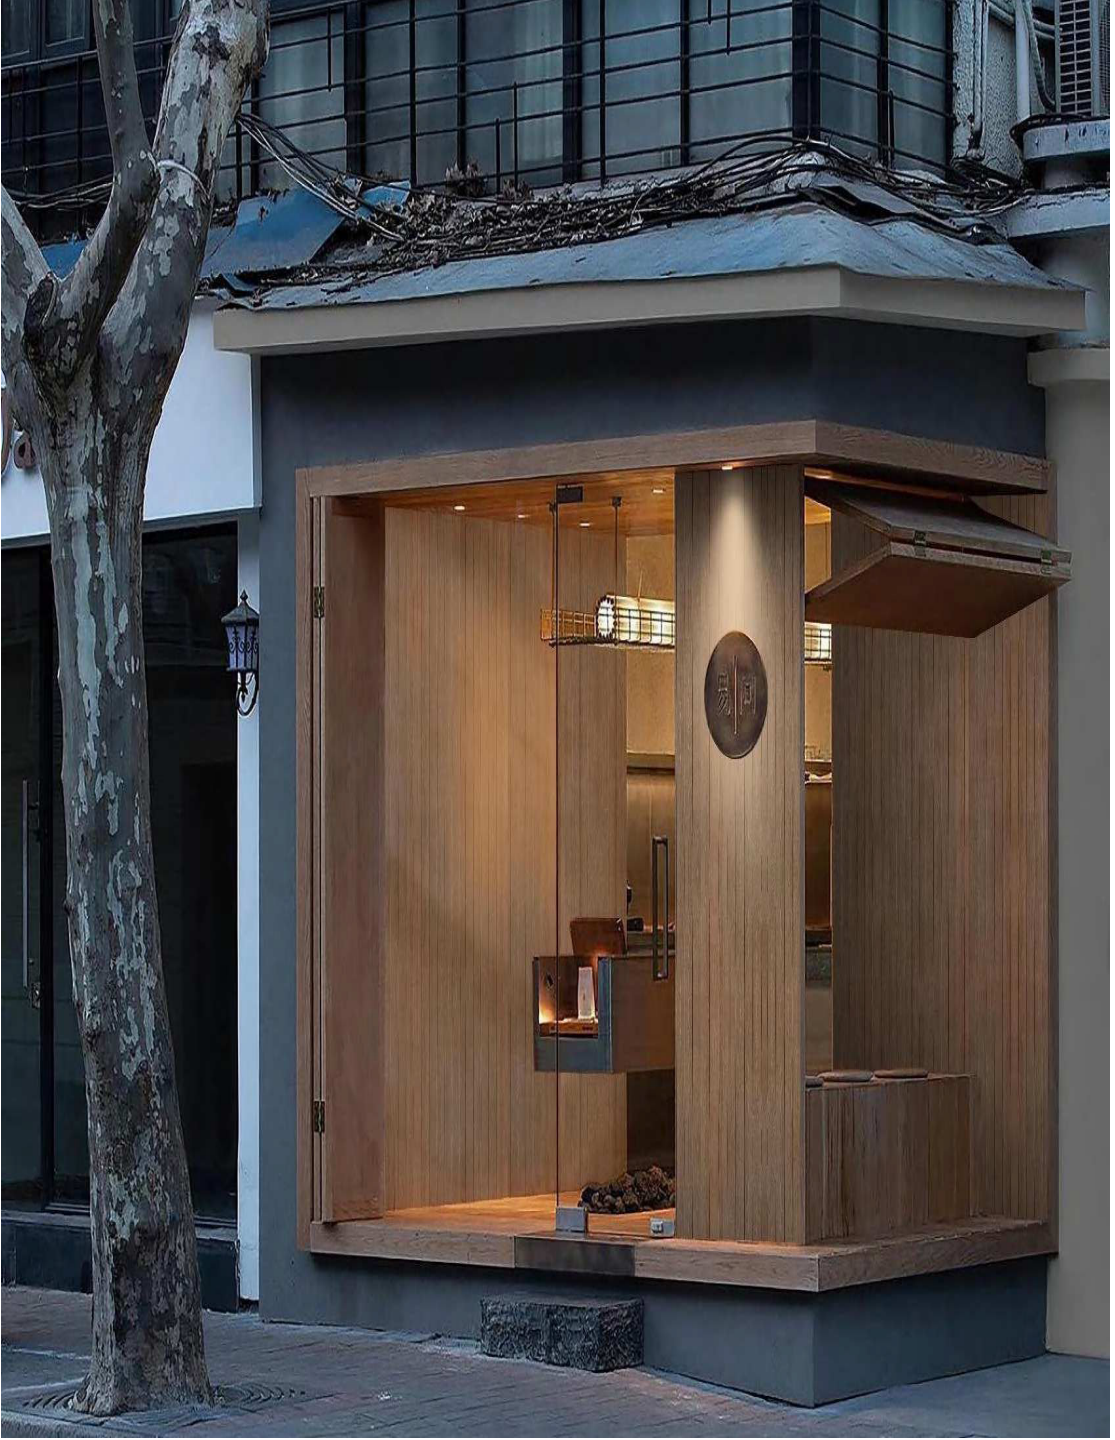
## Application

Suitable for interior and exterior walls, art installations, characteristic buildings, etc., bringing a sense of primitive power and artistry to the environment.



**Specification**

| | |
|---|---|
| Size | **3000x1145mm** |
| Thickness | **3-8mm** |



# WOOD FENCE

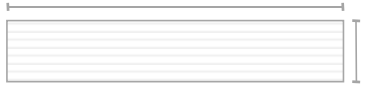
## Impressions

The Wood Fence, with its fine wooden lattice and warm tones, creates a cozy and orderly sense of space. Its clear textures and smooth lines are suitable for interior designs that require a sense of warmth and order.

## Application

Recommended for interior partitions, wall decorations, furniture design, etc., bringing warmth and order to the space.

**Specification**



| | |
|---|---|
| Size | **2900x300mm** |
| Thickness | **3-5mm** |

Light weight | easy installation | easy care | Strong toughness | Flexible and bendable | Antifreeze | waterproofing | class A fireproof | Environmental friendly | multicolored

# TRAVERTINE OCEANIC

## Impressions

With textures that resemble the erosion caused by sea winds and waves, the Sea Cave Stone exhibits a natural beauty that has withstood the test of time. Suitable for creating spaces that coexist with nature and a sense of history.

## Application

Recommended for interior and exterior wall decorations, garden landscapes, and other applications, especially suitable for marine-themed or natural-style spaces.

**Specification**

| | |
|---|---|
| Size | **2400x1200mm** |
| Thickness | **3-5mm** |

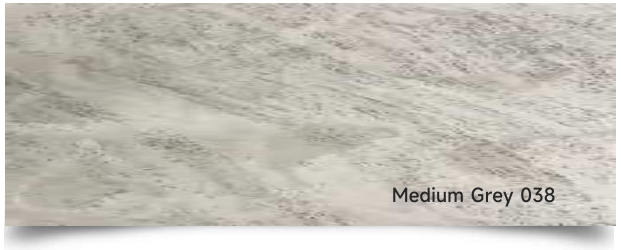
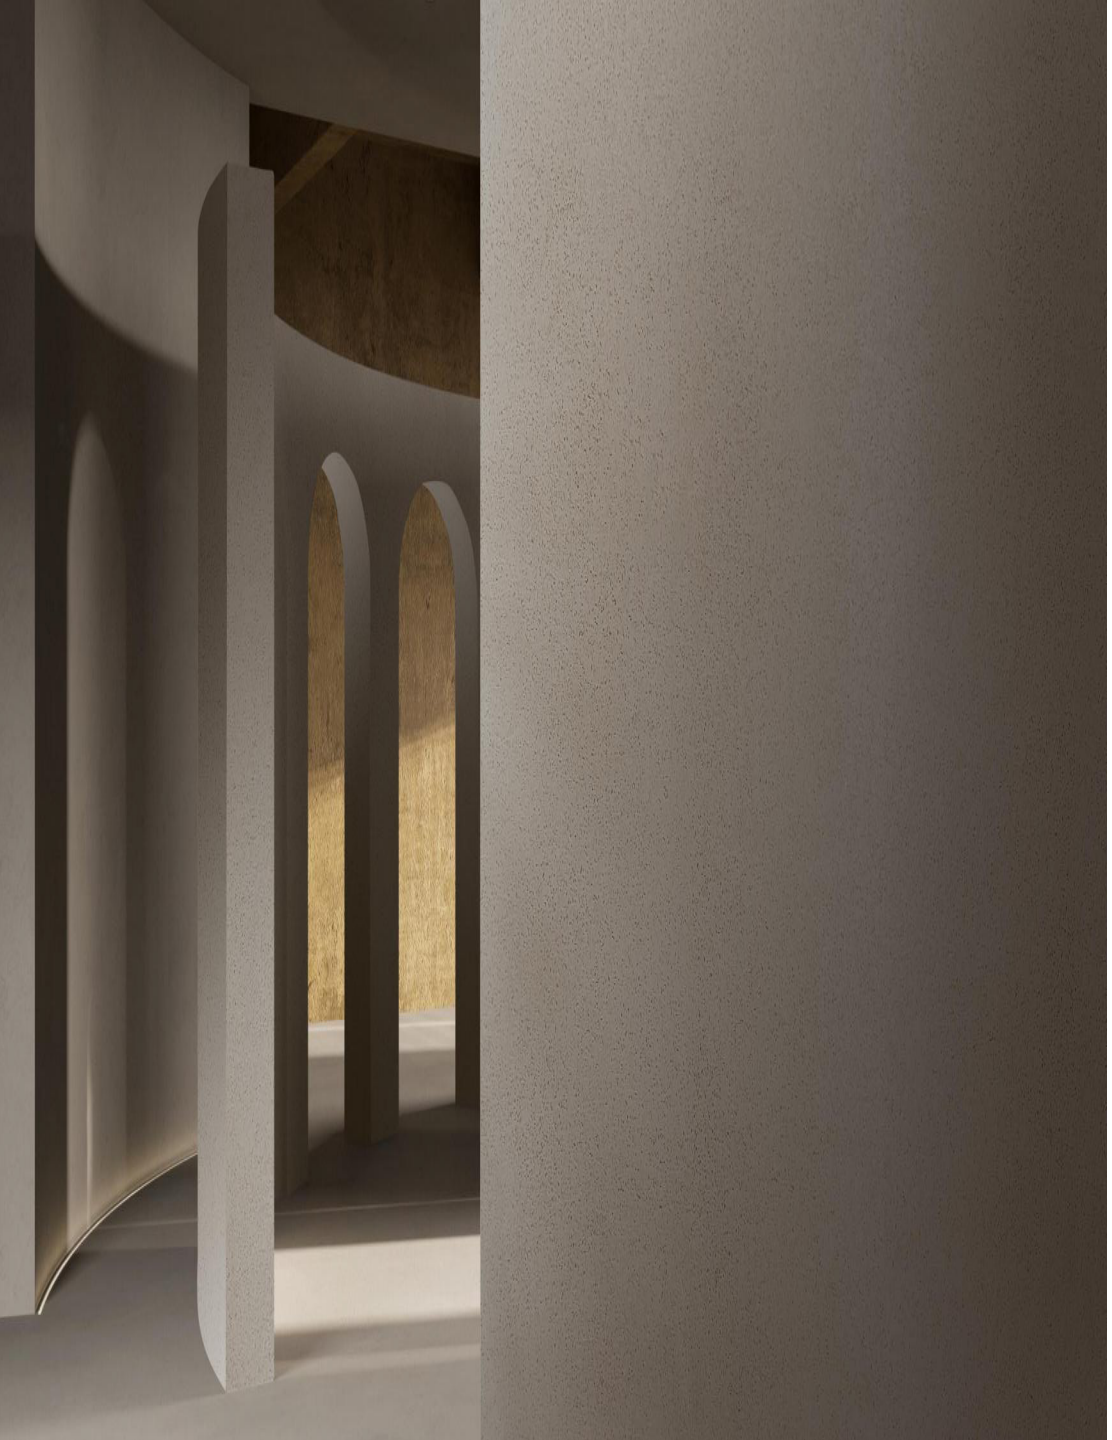
|---|---|
| Size | **2400x600mm** |
| Thickness | **3-5mm** |



Light weight · easy installation · easy care · Strong toughness · Flexible and bendable · Antifreeze · waterproofing · class A fireproof · Environmental friendly · multicolored



## Impressions

The New Travertine features evenly distributed caves without distinctive textures, presenting a modern aesthetic that is simple yet elegant. Its smooth surface and uniform cave sizes are suitable for interior designs that pursue minimalism.

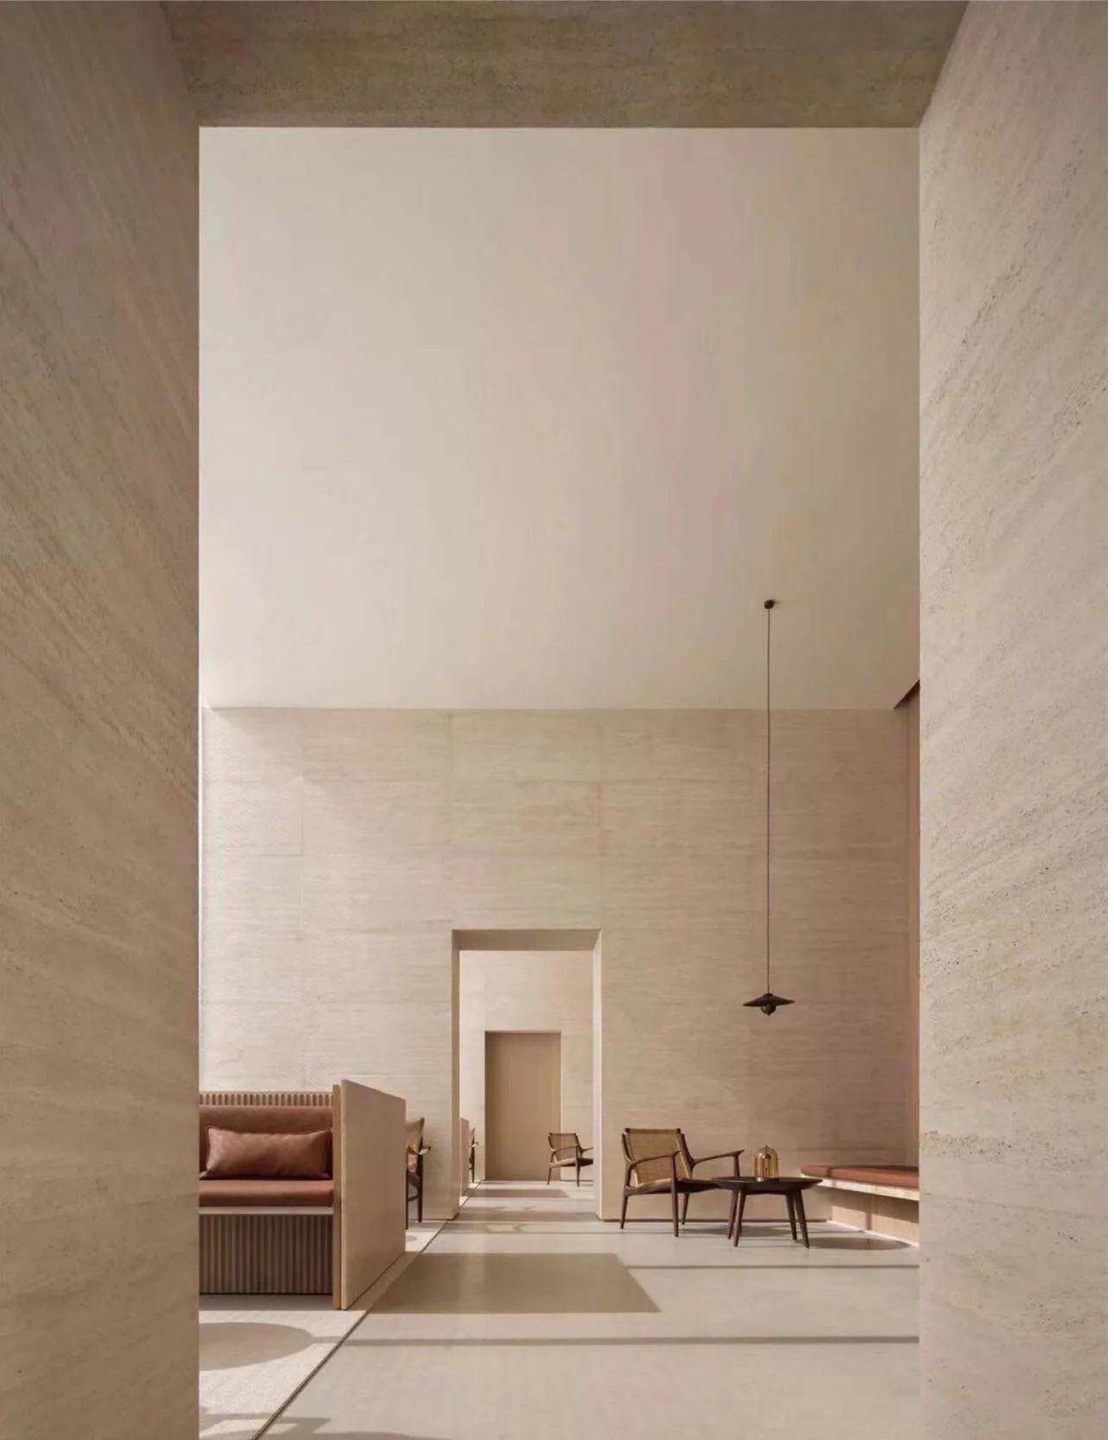
## Application

Suitable for interior walls, modern art spaces, commercial spaces, etc., bringing a modern minimalist style to the environment.

**Specification**

| | |
|---|---|
| Size | **2940*580mm** |
| Thickness | **3-5mm** |

# NEW TRAVERTINO



## Impressions

The Huge Travertine exudes a grand and expansive visual impression, creating a sense of spaciousness and depth. It does not feature particularly large holes but rather uses overall texture and color combinations to create a broad and distant visual effect.

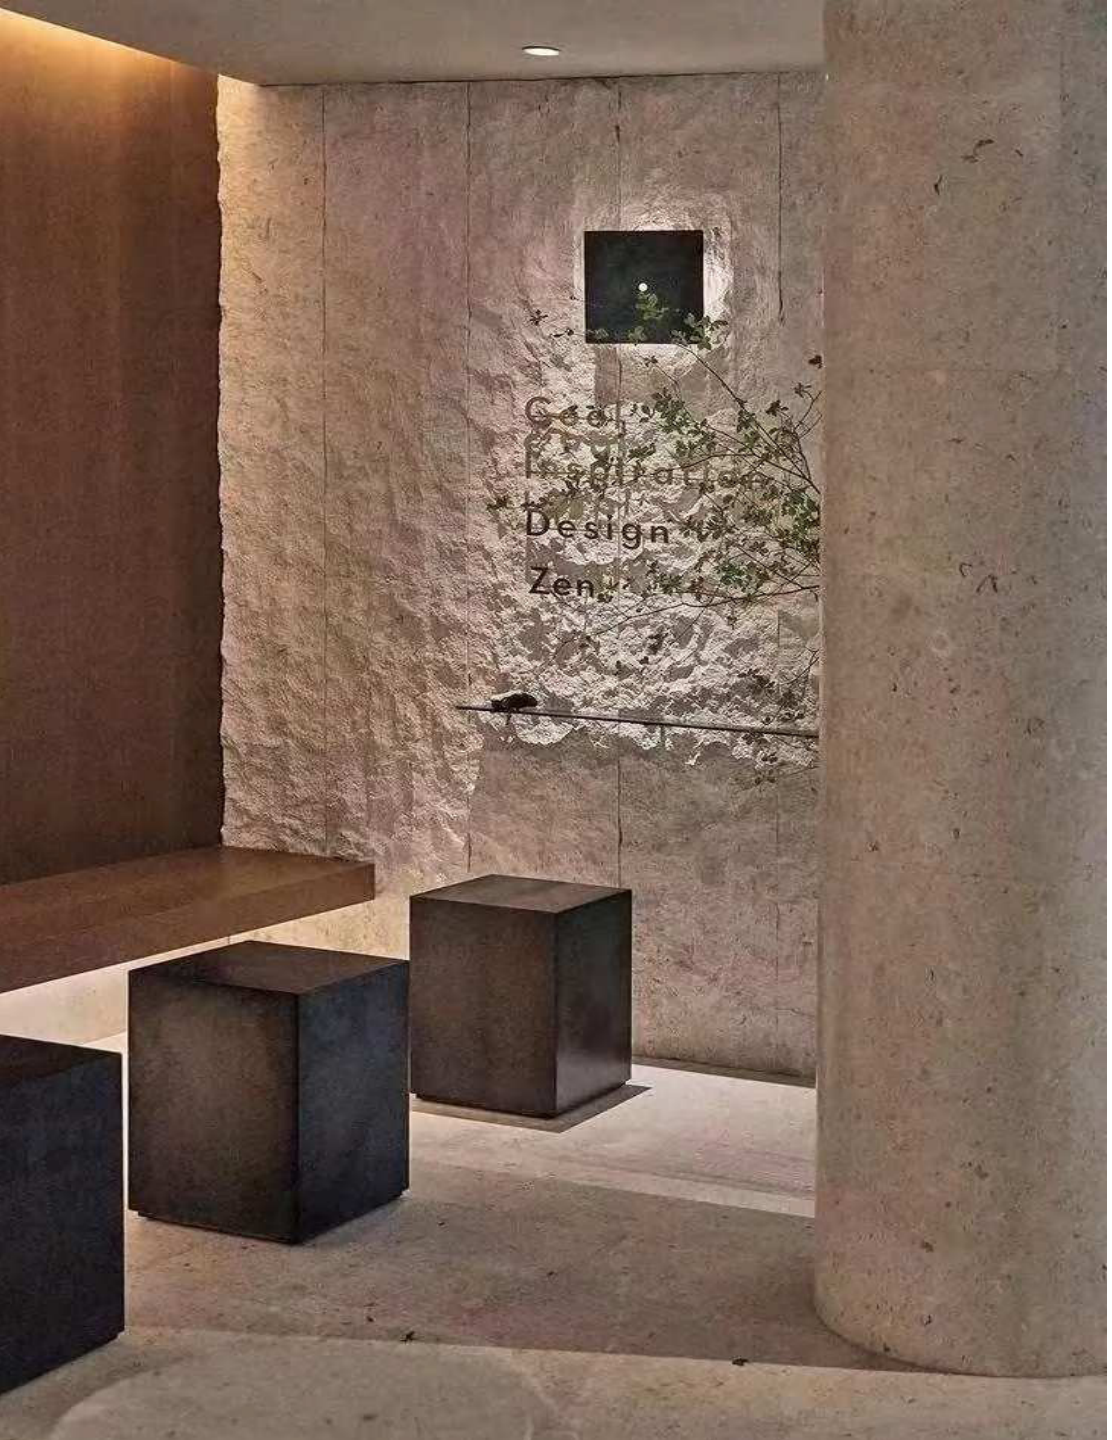
## Application

Suitable for interior and exterior wall decorations, especially for places that need to emphasize a sense of space and grandeur, such as hotel lobbies and exhibition halls.

**Specification**

| | |
|---|---|
| Size | **2940*580mm** |
| Thickness | **3-5mm** |

# HUGE TRAVERTINO



# STARMOON STONE

## Impressions

The Star Moon Stone, with its textures resembling the undulations of the lunar surface, presents a mysterious and dreamy aesthetic. Its delicate textures, akin to the lunar craters, bring a wondrous experience of space exploration to interior spaces.

## Application

Suitable for interior walls, technology-themed spaces, planetariums, etc., adding a sense of cosmic exploration mystery to the environment.

**Specification**

| | |
|---|---|
| Size | **3260x1200mm** |
| Thickness | **5-13mm** |

# MOONSCAPE STONE

## Impressions

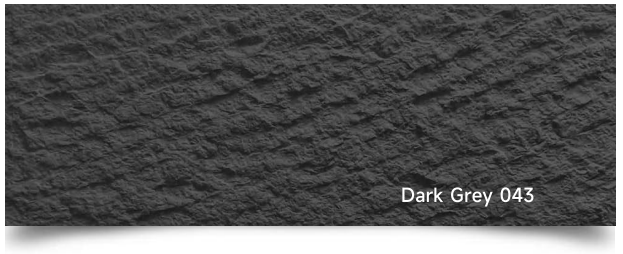
The Moonscape Stone, with its more pronounced textural ravines, exhibits a stronger sense of height difference and three-dimensionality compared to the Star and Moon Stone. Its profound textures, resembling the lunar valleys, bring a sense of depth and adventure to the space.

## Application

Suitable for interior and exterior wall decorations, especially for places that need to emphasize natural landforms and an adventurous atmosphere, such as themed restaurants and adventure experience halls.

**Specification**

| | |
|---|---|
| Size | **1660x600mm** |
| Thickness | **2-13mm** |



# DACITE

## Impressions

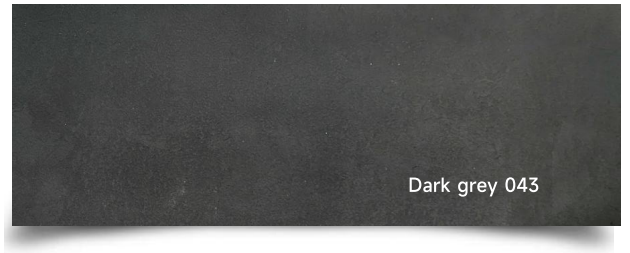
With its unique textures and solid texture, the Dacite exhibits a stable and elegant natural beauty. Its surface textures are delicate, and the color is deep, suitable for creating a high-end and atmospheric interior space.

## Application

Recommended for interior wall decorations in high-end hotels and business clubs, adding a sense of stability and nobility to the environment.

**Specification**

| | |
|---|---|
| Size | **3040*1160mm** |
| Thickness | **4-6mm** |



# CHARCOAL BURNT WOOD BOARD

## Impressions

The Carbonized Wood, with its deep brown tones and unique carbonization textures, presents a retro and warm atmosphere. Its smooth surface and hard texture are suitable for creating a cozy and durable home environment.

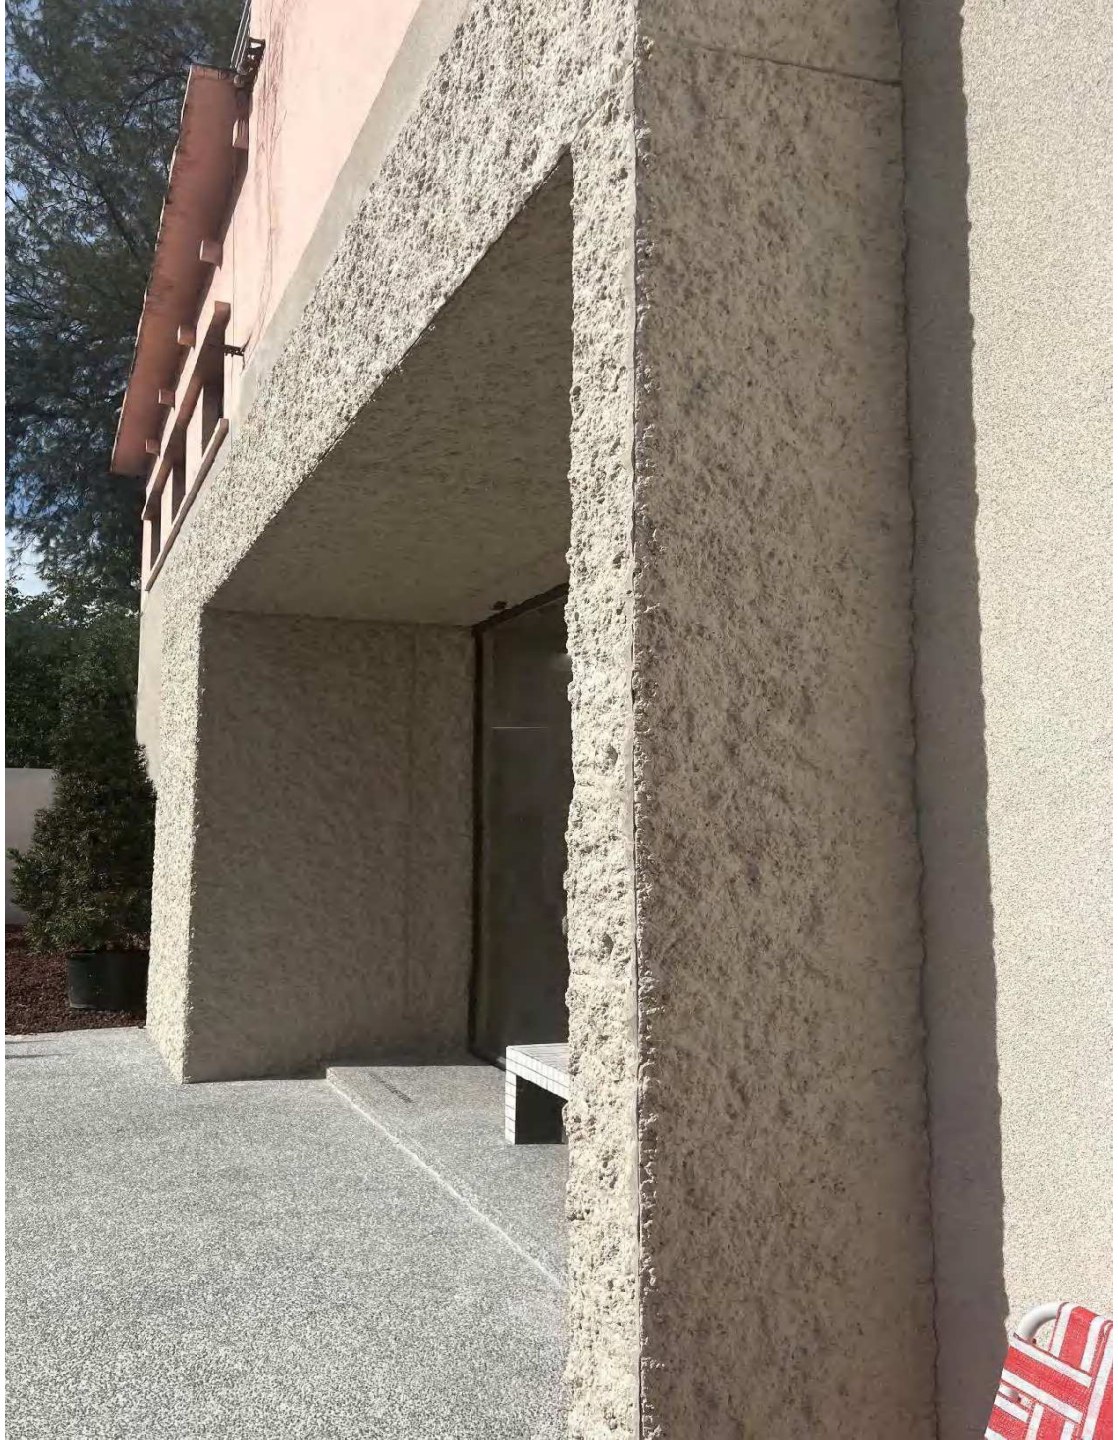
## Application

Suitable for walls, furniture making, etc., bringing a retro warmth to the home space.

**Specification**

| | |
|---|---|
| Size | **3040x550mm** |
| Thickness | **3-5mm** |

Light weight · easy installation · easy care · Strong toughness · Flexible and bendable · Antifreeze · waterproo fing · class A fireproof · Environmental friendly · multicolo ured



# AEROLITE

## Impressions

The Lost Ruins, with textures that seem to have been weathered by time, exhibit an ancient and mysterious beauty. Its surface bears the marks of history, with a weathered color, suitable for creating spaces with a sense of history and exploration.

## Application

Suitable for themed restaurants, museums, exhibition spaces, etc., bringing a sense of mystery from ancient ruins to the environment.

**Specification**

| | |
|---|---|
| Size | **2950*1170mm** |
| Thickness | **5-17mm** |

# SAWING WOOD BOARD

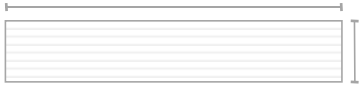
## Impressions

The Sawing Wood Board, with its clear wood grain and natural color, presents a simple and genuine wood aesthetic. Its clear textures and gentle touch are suitable for creating a cozy and natural interior environment.

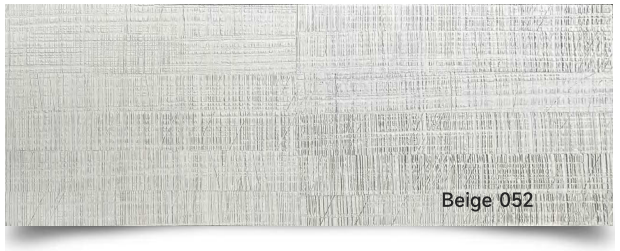
## Application

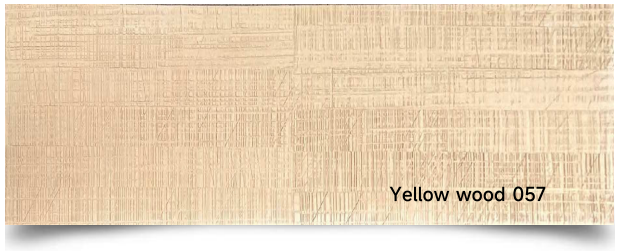
Suitable for interior walls, furniture surfaces, etc., bringing a natural and simple feeling to the home space.

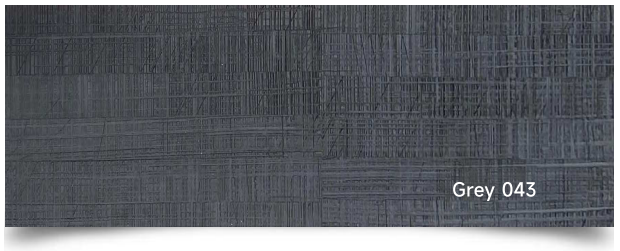
**Specification**

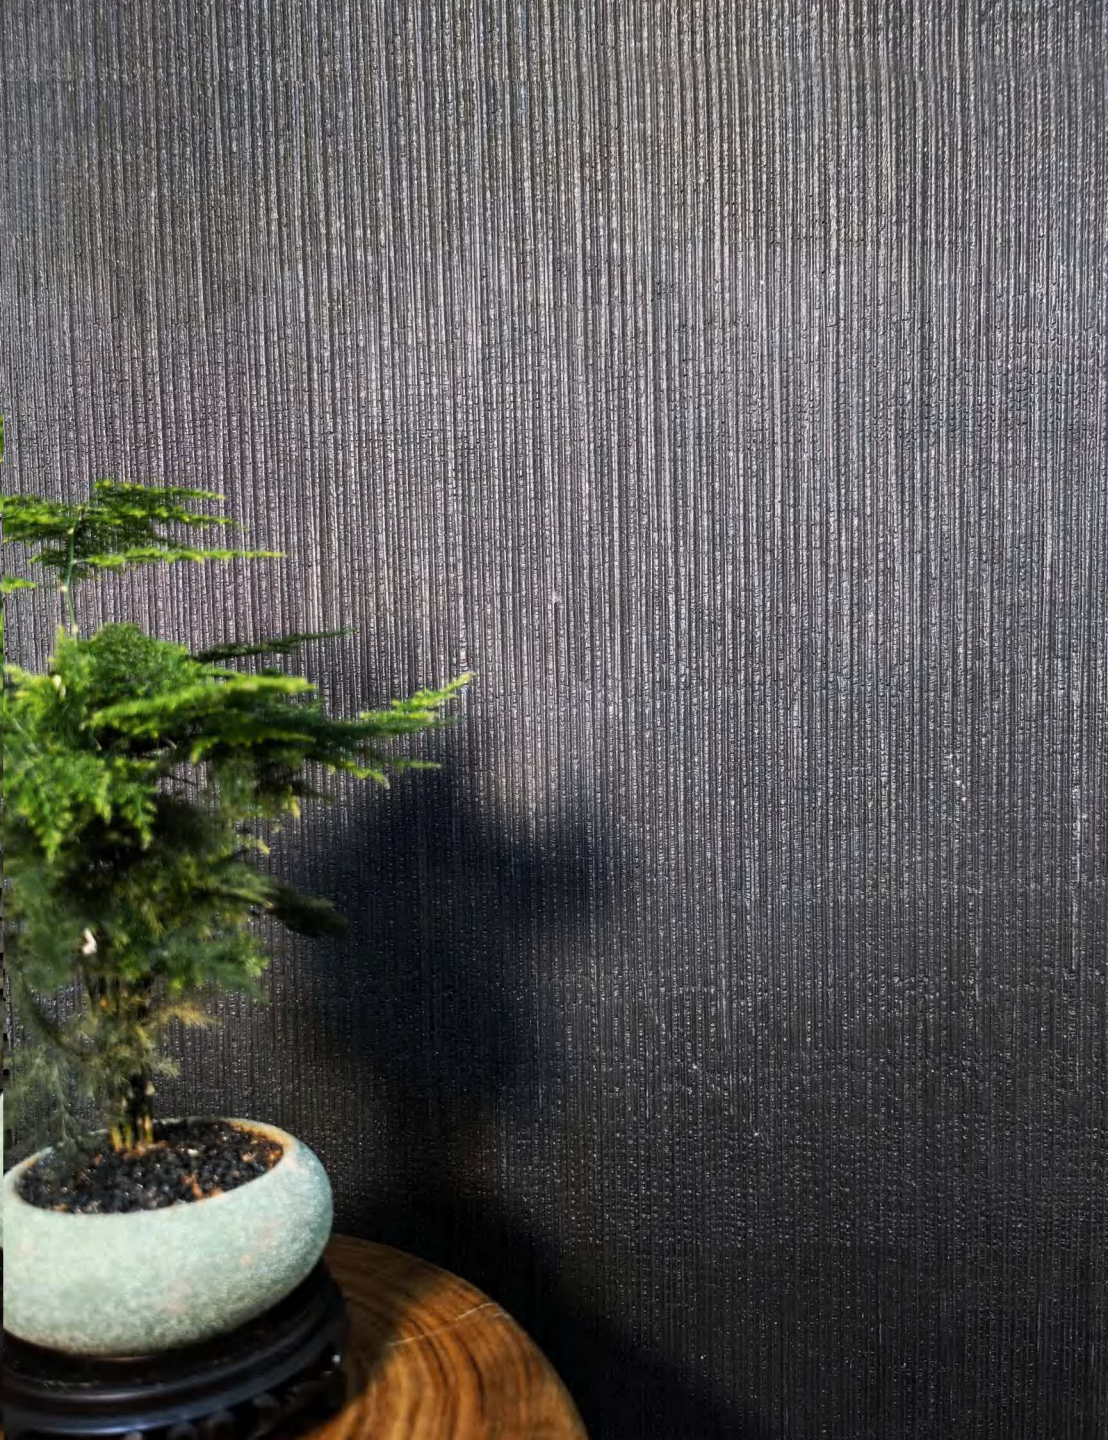


| | |
|---|---|
| Size | **3150*580mm** |
| Thickness | **7-10mm** |









# ZEN WOOD PANEL

## Impressions

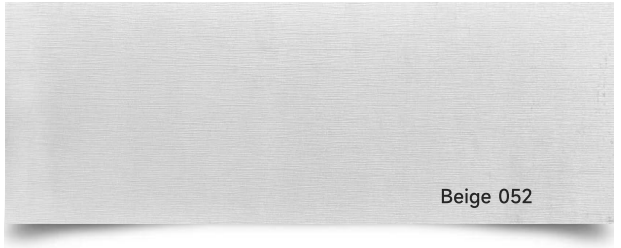
The Zen Wood Panel, with its simple textures and deep colors, presents a tranquil and Zen-like beauty. Its simple textures and steady colors are suitable for creating spaces of quietude and contemplation.

## Application

Suitable for studies, tea rooms, meditation spaces, etc., bringing a tranquil and Zen-like atmosphere to the environment.

**Specification**

| | |
|---|---|
| Size | **2900*600mm** |
| Thickness | **3-5mm** |



# PROJECT REGULAR-USE SERIES

# WEAVING

## Impressions

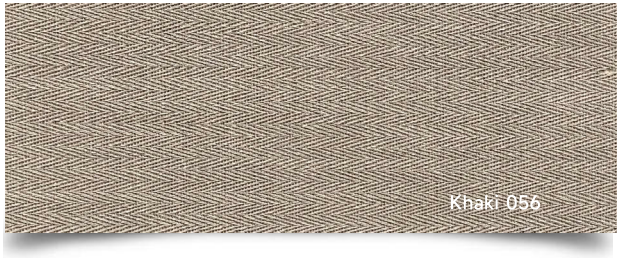
The Weaving Borad, with its handcrafted texture and natural hues, presents a simple and warm atmosphere. Its delicate textures and soft touch are suitable for creating a comfortable and cozy interior environment.

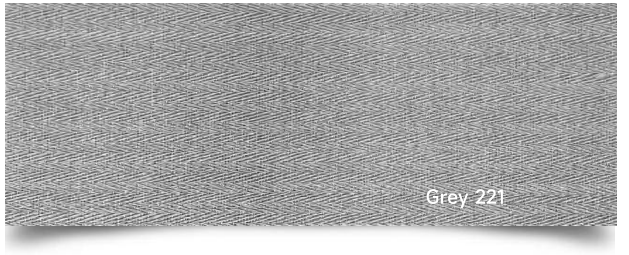
## Application

Suitable for interior wall decorations, furniture embellishments, etc., bringing a warmth of craftsmanship to the home space.

**Specification**

| | |
|---|---|
| Size | **1500x600mm** |
| Thickness | **3-5mm** |





# TRAVERTINE

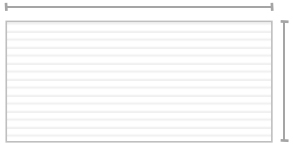
## Impressions

With its unique cave textures, the Travertine exhibits a natural and primitive beauty. Its surface is dotted with caves of various sizes, resembling the marks of weathering, suitable for expressing the art of nature and time.

## Application

Recommended for interior and exterior wall decorations, garden landscape designs, etc., especially suitable for spaces designed in a natural style.

**Specification**



| | |
|---|---|
| Size | **1200x600mm** |
| Thickness | **3-5mm** |
